RE: City of Weiser Resumption of Use

Dear Mr. Betts:

This letter responds to your October 27, 2020 letter regarding the resumption of use on several of the City of Weiser's water rights.

Enclosed please find the information that addresses the matter. Below is a brief summary of the information contained in the forms.

Water Right No.	Water Use	Response
3-7009	Municipal from Snake River	This is a municipal right that is incorporated within the City's delivery system and has been used as needed since 2017
3-7034	Irrigation from Snake River	These three water rights' point of diversion change was approved in transfer 84011 and in conformance with the transfer deadlines, the City has executed a lease and the piping to the new PODs have been done. Full use was postponed due to the inability to meet in person in 2020.
3-10198	Irrigation from Snake River	
3-10264	Irrigation from Snake River	
3-2320	Municipal from Groundwater	This is a municipal right that is incorporated within the City's delivery system and has been used as needed since 2017.

3-10975	Domestic/Fire from Groundwater	Approved Transfer No. 81671 in 2018 moved the location of this water right to wells used by the City. This water right has been diverted and used as described in the transfer since 2018.
3-4412	Irrigation from Weiser River	Approved Transfer No. 84341 split this water right to irrigate to parcels located within the City's Boundaries. These parcels have been irrigated with this water for the past several years and this summer, 2020. The transfer was to correct the points of diversion and delivery of water to conform with the actual places of use and points of diversion that have been used for the past 10 years.

If you have any questions or concerns, please contact me at the above number.

Very Truly Yours,

Candice M. McHugh
