Notice of Intent to Void Permit

RE: Water Appropriation Permit No. 96-9144

Dear Mr. and Mrs. Swift:

The Department of Water Resources (Department) is reviewing the above referenced permit to determine if a license can be issued. In order for a permit to be licensed, the permit holder must show that a beneficial use has been legally developed in excess of existing water rights on the property.

According to the Department's records, permit 96-9144 (Permit) for a diversion rate of 0.08 cfs for heating beneficial use, a diversion rate of 0.08 cfs for cooling beneficial use, and a diversion rate of 0.04 cfs for domestic beneficial use. The permit was approved on October 10, 2003. A computer generated copy of this permit is attached to this letter.

A field exam for separate water rights 96-9145 and 96-9146 were conducted by IDWR staff on June 16, 2008, but a field exam for this Permit was not accomplished during that time. Since that time, IDWR staff has sent letter correspondence requesting you communicate back with staff to schedule a field exam for this Permit. An initial letter was mailed on July 20, 2017, and a more recent letter mailed October 27, 2020 requesting you contact the department to discuss scheduling a field exam. There has been no response annotated from the applicant leading up to the mailing date of this correspondence.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. A water appropriation permit authorizes development of a water right within a specific time frame in excess of the water rights already used in the system. Without completion of a field exam for this Permit, IDWR is not authorized to finalize issuance of a Water Right License.

Unless you respond to this correspondence by phone or mail **within thirty days or by January 25, 2021**, to discuss the scheduling of a field exam for Permit 96-9144, I will take action to void your permit. If you are no longer interested in your permit, you can shorten the voiding process by signing and returning the enclosed relinquishment form.

If you have any questions in regard to this matter, please do not hesitate to contact me.

Sincerely,

 12/16/2020

Luke Bates
Water Resource Agent

RE: Scheduling Field Exam for Water Right Permit No. 96-9144

Dear Permit Holder(s):

This is a second attempt by IDWR to reach you regarding scheduling of a field exam for water permit 96-9144. This permit is one of three that you had applied for in the past. An IDWR water resource agent accomplished field exams for water rights 96-9145 and 96-9146 in June of 2008, but for reasons unknown permit 96-9144's field exam was not included and/or completed at that time. An examination is a necessary step in the water appropriation process. During the examination, I will verify your water uses pursuant to your permit (copy enclosed).

In order to conduct your exam as efficiently as possible, please call me at (208) 762-2800. Please be advised that you will need to operate your system under normal conditions during the examination. **Please call or email me within 14 days to discuss this water right permit.**

I look forward to meeting with you and working towards finalizing your permit.

Sincerely,

Luke Bates
Water Resource Agent

RE: Permit to Appropriate Water 96-9144

Dear Permit Holder(s):

I am planning to conduct water right examinations in the vicinity of the above-referenced permit sometime in July or early August. An examination is a necessary step in the water appropriation process. During the examination, I will verify your water uses pursuant to your permit (copy enclosed).

In order to conduct your exam as efficiently as possible, please call me at (208) 762-2800. Please be advised that you will need to operate your system under normal conditions during the examination.

I look forward to meeting with you and working towards finalizing your permit.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam Frederick".
