RE: Rule 35 Incomplete Application for Permit-Incorrect Quarter Quarter

Dear Applicants:

Please contact me about your incomplete Application For Permit. It is unclear if it is your intent to obtain a new water right or accomplish a change of ownership on an existing Water Right. The fee for Notice of Change in Water Right Ownership with no splits is \$25. The fee for an **Application for Permit is usually \$100.**

Idaho Department of Water Resources (IDWR) received your partially corrected Application for Permit on October 2, 2017 for .04 Cubic Feet per Second (CFS) using Groundwater for Domestic purposes. Your incomplete Application is enclosed. Completion of the Application with the correct Point of Diversion and Place of Use legal descriptions, matching the Application map, is required before IDWR can publish accurate legal notices. Completion of Line 8 (d), 9, 10, 11, 12 and 13 of the Application is also required.

Idaho Administrative Code (Rule 35 Water Appropriation Rules IDAPA 37.03.08) requires that the legal description of the Point of Diversion and Place of Use be described to include the correct Quarter Quarter (NW SW) on both the Application (line 4 and line 9) and accompanying map.

Please telephone me for assistance to submit the completed Application with the correct information or contact me for an appointment at the IDWR Northern Region office by November 24, 2017. I can describe how to use the enclosed IDWR map to complete the Application if you need help. Please submit a written request if you need additional time to provide the information. IDWR can grant additional time upon a showing of good cause for the delay.

I can be reached at (208) 762-2816.

Respectfully,

Shaun M. Maxey
Senior Water Resource Agent
