In a recent land survey I have acquired

Back land into my Boise river ranch. The land is a island in the Boise river Aprox. 6 acres. 3 acres of is is free of brush and trees so the idea for the water permit is to farm that ground into a food plot area for the wild game and birds that live there. This area being farmed let's us control the many varieties of noxious weeds and plants that grow in that area. A vertical culvert with mesh intake with a 110 cc gas powered 2 inch pump on top is how we pump water to a sprinkler system for the island. The pump has a chain and lock and is removable. The installation went well and we grew a great crop of Millet, milo, corn and wild rice. The crop will remain standing throughout the winter so the game can benefit from its growth, all while it kept the noxious weeds to a minimum. Inclosed are many photos of the progress. High res photos can be emailed with request to blackdogmachine@msn.com.

### PROOF ACKNOWLEDGEMENT LETTER

**RE: Permit No. 63-34731**

Dear Permit Holders:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

**Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at [www.idwr.idaho.gov](http://www.idwr.idaho.gov).**

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Debbi Judd  
Technical Records Specialist
