**Re: Completed Resumption of Beneficial Use Forms for a Portion of WR 22-7163  
and the Entirety of WR 22-13019.**

Dear James:

Enclosed for processing are completed *Resumption of Beneficial Use* forms for a 35.6-acre portion of WR 22-7163 and the entirety of WR 22-13019. I am providing these to you because you were the agent that I worked with in issuing WR Permit No. 22-7648. WR 22-13019 is now owned by various entities associated with the Crapo family. You were the agent that worked on WR Permit No. 22-7648 which included designation of 170 acres under WR 22-13019 for mitigation of the reinstated permit. In 2015, we submitted a request for extension of time to avoid forfeiture on the entirety of this right and 35.6 acres of the base water right, WR 22-7163. This base water right is still owned by John and Gerry Zirker. John has asked that I submit this form on their behalf as well.

Please note that there remains a 59.9-acre portion of 22-13019 and a 5-acre portion of 22-7163 that is appurtenant to the property owned by the Bureau of Reclamation that elected to no longer lease the property. The Crapo entities have farmed the property owned by the Zirkers next to the Reclamation property. Along with the enclosed documents, we are submitting *Water Supply Bank Applications* to have these water right portions placed in the water supply bank.

We appreciate your attention to this matter. If you have any questions or concerns, please let me know.

Best regards,

Robert L. Harris
