Subject: Application for Transfer 83911

Mr. Baird,

On February 18, 2020, you filed Application for Transfer 83911, proposing to change the point of diversion and place of use for water right 34-10905. The proposed point of diversion is located on the Big Lost River, just east of the Moore wastewater treatment ponds. Your proposed pipeline from the river would cross property owned by Moore Water & Sewer District. True Stone LLC, Phillip Traughber, and Max Bingham. The application included an email from Moore Water & Sewer District consenting to the transfer. Max Bingham and Kim Davies (True Stone) protested the application.

We attempted to schedule a pre-hearing conference earlier this year, but you asked us to hold off to provide you some time to discuss the application with the protestants. If the informal settlement discussions have not been successful, I would like to start moving this contested case toward a hearing. Please provide an update on the contested case. If you are not close to settlement, we will schedule a telephone pre-hearing conference for October or November.
