RE: Application for Permit 21-7523

Dear Applicant:

*Dear Sir,
This has been so
long ago we don't
remember - However
we have sold all
this land - Cancel
this app.*

On May 15, 1992, you filed Application 21-7523, seeking a permit to divert ground water for the irrigation of 379 acres in Section 1, T07N, R39E and Section 6, T07N, R40E. The application states that you own most of the property at the proposed place of use. As I was recently reviewing pending application files, I discovered that you no longer own any of the land at the proposed place of use. Pursuant to Rule 40.05(e) of the Department's Water Appropriation Rules (IDAPA 37.03.08), an applicant can be required to submit copies of "deeds, leases, easements or applications for rights-of way" showing "a possessory interest in the lands necessary for all project facilities and the place of use."

*The Romrells
Paul
&
Ellen*

An applicant has an ongoing duty to ensure that a pending application remains complete and viable. Part of that duty includes maintaining an ownership interest in the place of use described in the application.

It appears that you have sold the property described in Application 21-7523 and likely have no further interest in pursuing the application. This letter is intended to be a formal request for you to provide documents showing an ongoing possessory interest in the proposed place of use. Please provide these documents, if any exist, on or before September 30, 2020. If no documents are provided, the Department will take steps to void Application 21-7523. You can also simply withdraw the application. This can be done by stating your intent to withdraw the application in a letter to the Department. Please feel free to call me with any questions.

Sincerely,

James Cefalo
