4. If the water rights and/or adjudication claims were split, how did the division occur?

☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.

☒ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: October 28, 2019

6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).

7. This form must be signed and submitted with the following **REQUIRED** items:

☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.

☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).

☒ Filing fee (see instructions for further explanation):

DATE: 4/29/2020  
RE: Refund on Receipt # W047925

THE LAND GROUP INC paid \$625.00 for multiple ownership changes, on 12/13/2019. Water right #63-19830 was initially requested to be split between Flamingo West LLC (\$100) and Flamingo West 2 LLC (\$100), however a condition on the water right limited use to the parcel changing to Flamingo West LLC. Upon notifying the applicant, they elected not to split the right but simply change the ownership (\$25). A refund should be issued.

Please issue a \$175.00 refund as follows:

Hi Steve,

Thanks for getting back with me. I believe this email is sufficient. I will double check and arrange for any reimbursement for not splitting.

Hi Allen,

Lori Graves forwarded your email to me. I also talked to the new owner (cc'd on this email).

With condition #4 of 63-19830 we concluded that splitting 63-19830 does not make sense; keeping the stockwater right on Parcel #1R342230000 in the name of Flamingo West makes good sense and the owner concluded that is the preferred way.

Will this email suffice for that direction or will you need additional information?

Thank you. Let Lori or I know how we can help.

Subject: Flamingo West stockwater right 63-19830

Hi Lori,

I was hoping you could give me some direction on the ownership change for Flamingo West. In particular the stockwater right 63-19830. Here is a brief summary of all the rights involved:

- Prescott Crossing LLC –
  - 63-2614 (SPLIT Irrigation)
  - 63-10437 (SPLIT Irrigation)
- Flamingo West LLC –
  - 63-2614 (SPLIT Irrigation)
  - 63-10437 (SPLIT Irrigation)
  - 63-19830 (SPLIT Stock water)
  - 63-19831 (Domestic)
- Flamingo West 2 LLC –
  - 63-2614 (SPLIT Irrigation)
  - 63-10437 (SPLIT Irrigation)
  - 63-19830 (SPLIT Stock water)

Some of the concerns with the split of stock water right #63-19830 include:

- NENE N½ is Parcel # 1R34223-000-0 (Flamingo W) is only parcel named on water right under condition 4 - stockwater, 150 range cattle parcel no. 1R34223-000-0
- NENE S½ is Parcel # R3422301300 (Flamingo W2) according to the OC should receive part of the stock water

The deed language is general, not listing specifics of the water rights:

Both warranty deeds for Flamingo West and Flamingo West 2 simply say "including any and all water rights."

The Non-Merger Deed in Lieu of Foreclosure for Prescott Crossing says, "...as well as all development rights, air rights, all diversion payments or third party payments made to crop producers, water rights, well rights, ditch rights and water stock relating to the real property..."

It appears that new owners could easily keep the stock water with Flamingo West (#1R342230000). However, if they want to split the stock water use they will need a transfer to go with it. And possibly an application for permit if they need to add additional water. The split would only yield 0.02 cfs for each right.

Let me know what you think.

63-10437 (split into 63-34884, 63-34885, and 63-34886)

Dear Water Right Holder(s):

The Department of Water Resources (Western) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water rights to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Water right nos. **63-19830** and **63-19831** have been assigned to your ownership in their entirety. Water right nos. **63-2614** and **63-10437** have been split, and portion nos. **63-34881** and **63-34885** have been assigned to your ownership. Please refer to your new water right numbers when corresponding with our office.

**Your portion of each water right has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right.** If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning this matter, please contact me at (208) 334-2910.

Sincerely,

**Re: Notice of Change in Ownership for Water Right No(s): 63-2614, 63-10437, 63-19830, 63-19831**

Dear Water Right Holder:

The Department has received and processed three (3) Notices of Change in Water Right Ownership for portions of the above referenced water rights. These changes in ownership resulted in splits of your original water rights. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Water right nos. 63-2614, 63-19830, and 63-19831 have been assigned to new ownership. Water right no. **63-10437** has been split, and a portion retaining the original water right number remains in your ownership.

When a portion of an original water right has been conveyed to a new owner and the original right has been split, a new water right number is created to represent the portion obtained by the new owners. Please note your original water right numbers do not change as a result of these splits. For your records a proof report for **63-10437** and map depicting the place of use (POU) and point(s) of diversion (POD) after the split are enclosed.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.
