No problem, we plan to do an outdoor shower as well, no lawn or landscape but an outdoor hose for emergencies.

I do have one more question. Is this water only for in-house use? Do you irrigate any lawn, garden, landscape, etc.?

Hi,
I attached a signed statement for the permit. Is this ok or would you prefer that I mail the original statement. If I mail it, should I address it to you and mail to the Boise address.

Sincerely,

Dear Permit Holder:

The Idaho Department of Water Resources (Department) received your Proof of Beneficial Use (Proof) statement and is in the process of reviewing this permit for licensing. One of the questions on item #7 on the Proof is, "Is there a fish screen required?" You checked "no". According to a condition on your permit, you must comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game. Has a fish screen been installed?

Please provide the requested information in writing within 30 days. If the Department does not receive the requested information within 30 days, steps may be taken to void your permit. Please let me know if you have any questions. Thank you.

To Whom It May Concern,

This letter is in regard to the attached email I received for my Proof of Beneficial Use. There is the appropriate fish screen on the water inlet intake to the water pump. The Idaho Fish and Wildlife Department said it is not required but is recommended. So, we complied with the recommendations.

Thank you,

2. Volume Calculations for Other Uses: Domestic, indoor use only. 0.6 af per application processing memo # 3.

G. NARRATIVE/REMARKS/COMMENTS: ArcMap and Kootenai County show dwelling on property and list Twyla M Angelos Revocable living Trust as current owner. There are no overlapping rights to this property. Volume for indoor domestic use is 0.6 af. I spoke with the Water Rights Supervisor in Northern region regarding the use. He stated the application referred to indoor use only but no condition was placed on the permit. I added condition WB5 to the license for indoor use only. I also questioned why the rate is 0.02 cfs as we normally give domestic rights 0.04 cfs. He stated that was what they applied for. The POU for this right is located within Lot 6, Leland Homesites Subdivision. I removed condition 029 since the fish screen requirement was confirmed via email in the file. Currently this right is located within WD 95C but not administered as it is a domestic, in-house use only.

Have conditions of permit approval been met? ☒ Yes ☐ No

Yes, there is a fish screening in place.

I was told the call the wildlife department to see if it was required. They said it was not required but recommended.

So we did place a screen on the inlet pipe to be safe according to their size recommendations.

Sincerley,
Twyla Angelos

Dear Permit Holder:

The Idaho Department of Water Resources (Department) received your Proof of Beneficial Use (Proof) statement and is in the process of reviewing this permit for licensing. One of the questions on item #7 on the Proof is, "Is there a fish screen required?" You checked "no". According to a condition on your permit, you must comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game. Has a fish screen been installed?

Please provide the requested information in writing within 30 days. If the Department does not receive the requested information within 30 days, steps may be taken to void your permit. Please let me know if you have any questions. Thank you.
