Subject: Amended Transfer Approval
Attachments: Amended Transfer 83471.pdf

Dear Parties:

The attached Amended Transfer 83471 was signed and mailed out today. I thought it would be helpful to provide a brief explanation of why an amended approval was needed. Earlier this week, Kristin Moore contacted the Department asking for an amended approval. According to Kristin, Condition #3 on water right 25-14490 identified the wrong subdivision lot. Kristin provided a copy of an application amendment that was supposedly filed by RMWE in February, changing one of the parcels from Lot 7 Block 1 to Lot 6 Block 1. I could not find the amendment in the transfer file. Even if the amendment was not filed, or was lost in the mail, I am not opposed to updating Condition #3 as requested by Kristin. The change to Condition #3 does not impact any of the elements of the water rights or the stipulated withdrawal of protest. As I was preparing the amended approval, I also noticed an error in the diversion rates for two of the water rights. The original approval listed diversion rates of 0.6 cfs for the split rights. The correct diversion rates for the split rights are 0.06 cfs. These are the only changes made to the approval. Please let me know if you notice any other errors or inconsistencies.
