RE: LICENSING OF PERMIT 95-17882

Dear permit holders,

The Department of Water Resources (Department) recently conducted an in-house licensing exam for your permit. This permit authorizes the use of groundwater from a well on your property for irrigation. The well driller's report shows that this well was originally drilled to be used for domestic use. For reference, I have included a copy of the report with this letter.

When a well is drilled for a domestic purpose and later used for any additional use such as irrigation or commercial use, an upgrade fee is due to the Department. In this case, a drilling permit upgrade fee of \$125 is required. Below is the Domestic Drilling Permit Fee and Upgrade scale:

Drilling started:	7/1/1987 TO 6/30/1990	\$10	UPGRADE = $200 - 10 = \$190$
	7/1/1990 TO 6/30/1996	\$35	UPGRADE = $200 - 35 = \$165$
	Since 7/1/1996	\$75	UPGRADE = $200 - 75 = \$125$

According to the Driller's Report, your well was drilled in 1997, so it amounts to \$125. Please enclose a copy of this letter with your payment made out to IDWR, and reference Drilling Permit ID 754488.

If you have any questions concerning the upgrade fee, please contact me at (208)287-4913 or alex.dalgleish@gmail.com

Sincerely,

Alex Dalgleish

Water Resource Agent
