RE: Application for Permit No. 75-14990

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 11/19/2020 and 11/26/2020. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script that reads "Jean Hersley".

RE: Application to Appropriate Water in the Upper Salmon River Basin 75-14965-  
14990

Dear Water Right Applicant:

The Department of Water Resources' (IDWR) records show you filed an application to establish a new use of water in the upper Salmon River basin. Idaho Code § 42-203A(5) requires IDWR to determine whether each water right application satisfies all the criteria necessary for appropriating water in Idaho. One statutory criterion requires IDWR to determine the local public interest relative to the proposed water use. Idaho Code § 42-202B(3) defines the local public interest as "the interests that the people in the area directly affected by a proposed water use have in the effects of such use on the public water resource." The local public interest has many facets, including the effects of a proposed water use on aquatic habitat for fish and wildlife resources.

The upper Salmon River basin is home to stocks of chinook salmon, sockeye salmon, steelhead trout, and bull trout, all of which are listed as threatened or endangered under the Endangered Species Act (ESA). Since the early 1990s, local water users, conservation districts, and federal and state agencies have cooperated to implement conservation measures intended to protect and restore habitat for ESA-listed species in the upper Salmon River watershed. For example, at the request of local water users the Idaho Legislature directed the Idaho Water Resource Board (IWRB) to establish a minimum stream flow in the lower Lemhi River for fish passage. The minimum stream flow is maintained through a water supply bank and temporary or permanent acquisition of additional water supplies by willing buyers from willing sellers.

Pursuant to the Snake River Water Rights Agreement of 2004, Idaho has been developing a long term conservation plan for the benefit of ESA-listed species in the Lemhi River basin. Improving conditions in flow-limited river reaches and streams is a fundamental component of the Lemhi plan. In addition to IDWR, numerous state agencies, including the Office of Species Conservation, Idaho Department of Fish and Game, Idaho Department of Environmental Quality, Idaho Soil and Water Conservation Commission, and Idaho Department of Lands, have committed and continue to commit significant resources toward this objective under the following programs:

- Columbia Basin Water Transactions Program
- National Marine Fisheries Service Pacific Coastal Salmon Recovery Fund
- U. S. Fish & Wildlife Service Aquatic Species Conservation Fund
- Salmon and Clearwater River Basins Habitat Fund

- 2008 Columbia Basin Fish Accords

A myriad of habitat restoration projects are being constructed/implemented in other parts of the upper Salmon River basin. These projects have been coordinated with the local communities and water users through the Upper Salmon River Basin Watershed Program and predecessor programs, including the model watersheds. Furthermore, the Snake River Water Rights Agreement of 2004 contemplates the development of additional conservation plans for other upper Salmon River basin watersheds. Accordingly, the Comprehensive State Water Plan revised by the IWRB contains policies for the Salmon River basin that focus on the protection and restoration of instream habitat for ESA-listed species through voluntary participation in conservation programs.

Because of the ESA-listed species recovery efforts in the upper Salmon River basin, IDWR must determine on a case-by-case basis whether it is in the local public interest to authorize proposed water uses that would further deplete flow-limited stream reaches.

Pursuant to Rule 40.04.c of the Water Appropriation Rules (IDAPA 37.03.08.040.04.c), the applicant has the ultimate burden of persuasion regarding the items that must be evaluated in connection with each water right application. Before proceeding further with your application, IDWR requests you submit additional information about how your proposal invokes any local public interest concerns for ESA species recovery.

**Within 30 days, please submit any additional information you believe IDWR may need to evaluate and determine the local public interest in the water you propose to divert and use.** If IDWR has not received a response from you within 30 days, IDWR will assume you have no comment regarding the local public interest, and processing of your application will resume with the information currently on file. Processing will include public notice and the potential for formal protests by other interested parties. Applications that are not in the local public interest will be denied. If you wish to withdraw your application before it is processed, please notify IDWR in writing.

If you have any questions, please call me at 208-287-4800.

Sincerely,

Kala Golden  
Project Manager

Enclosure: Copy of Application

**To:** WR No. 75-14990  
**From:** Kala Golden  
**Re:** Pre-Advertisement Application Review

---

### **Applicant**

This application was received at the State Office on 06/19/2020 but it was incomplete, the location of the place of use did not match the location shown on the map. An amended application was received on 07/06/2020 but the applicant had changed the POD instead of the POU location. Another amended application was received 07/29/2020, and was assigned for processing as a part of a cross training effort. Applicants included are Robert Neuway and/or Carly Neuway; no representatives or consulting agencies were listed on the application. The amended application received 07/29/2020 was submitted complete, and did not require any further amendments.

### **Proposed Project**

The application proposes to take water from an existing ground water well located on the applicant's property. Licensed water right 75-14518 also diverts from the existing well for domestic use associated with an adjacent private residence. The applicants intend to develop a small irrigated orchard, for which water under this right will serve. Water will also be used on the pasture area located within the 3.6 acre Place of Use (POU), and will be rotated between growing grass for a single horse, and use in irrigating other planned crops. Given this water right will be used exclusively for irrigation, it should be limited to the standard season of use, 4/1-10/31.

### **Additional Comments**

The proposed project site, owned exclusive by the applicants, is located within Administrative Basin 75. Currently there is no Water District encompassing this location but this area may be included in water district 170 in the future. The site does fall within the boundaries of the Salmon River Wild & Scenic Watershed and should be administered accordingly.

Comments regarding this proposed project will be sought from the Idaho Water Resource Board (IWRB), given this right proposes to divert ground water directly adjacent to the Salmon River and the watermaster of water district 170. This reach of the Salmon River is protect by IWRB Minimum Stream Flow water right 75-14187.

RE: Application for Permit 75-14990

Dear Applicant(s):

The Department of Water Resources received your amended water right application. On the application you amended the point of diversion (POD), which was correct on the original application. The correction should have been on the place of use (POU).

I have enclosed an application for permit generated in our office that has the description of the POD and POU information that matches the map you provided, also enclosed. If you agree with the information on the application, please sign the application and return to the Department.

Please provide the requested information within 30 days or your application will be returned unprocessed and a refund will be requested. You can provide the information by mail to: 322 E FRONT ST STE 648, PO BOX 83720 • BOISE, ID 83720-0098.

Please feel free to contact me at (208) 287-4942 if you have any questions.

Sincerely,

RE: Application for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

- Item # 9- The Place of Use (POU) or acres irrigated was not provided correctly. Your application states the POU is located in **Township 8N**, Range 21E, Section 28, Gov't Lot 2 (NENE). The map shows the POU located in **Township 18N**, Range 21E, Section 28, Gov't Lot 2 (NENE). Please correct the POU, initial and date the correction and return to the Department.
- The Filing Fee was not provided. The filing fee for a diversion rate of 0.07 cfs is \$100.00.

Please provide the requested information and fees within 30 days or your application will be returned unprocessed. You can provide the information by mail to: 322 E FRONT ST STE 648, PO BOX 83720 • BOISE, ID 83720-0098.

Please feel free to contact me at (208) 287-4942 if you have any questions.

Sincerely,

Jean Hersley

RE: Application for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

- Item # 9- The Place of Use (POU) or acres irrigated was not provided correctly. Your application states the POU is located in **Township 8N**, Range 21E, Section 28, Gov't Lot 2 (NENE). The map shows the POU located in **Township 18N**, Range 21E, Section 28, Gov't Lot 2 (NENE). Please correct the POU, initial and date the correction and return to the Department.
- The Filing Fee was not provided. The filing fee for a diversion rate of 0.07 cfs is \$100.00.

Please provide the requested information and fees within 30 days or your application will be returned unprocessed. You can provide the information by mail to: 322 E FRONT ST STE 648, PO BOX 83720 • BOISE, ID 83720-0098.

Please feel free to contact me at (208) 287-4942 if you have any questions.

Sincerely,

Jean Hersley  
Technical Records Specialist 2

**APPLICATION FOR PERMIT**

To appropriate the public waters of the State of Idaho

1. Name of applicant(s) ROBERT NEUWAY, CARLY NEUWAY Phone 208-756-7387  
 Name connector (check one): ☐ and ☐ or ☒ and/or  
 Mailing address 182 BLUE HERON City SALMON  
 State ID ZIP 83467 Email neuwayjewelers@gmail.com

2. Name of representative, if any \_\_\_\_\_ Phone \_\_\_\_\_  
 Mailing address \_\_\_\_\_ City \_\_\_\_\_  
 State \_\_\_\_\_ ZIP \_\_\_\_\_ Email \_\_\_\_\_

- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR  
☐ Send original correspondence to the applicant and copies to the representative.  
 b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR  
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.

3. Source of water supply GROUND WATER which is a tributary of \_\_\_\_\_

4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
18N	21E	28	2		NE	NE	LEMHI	GROUND WATER	D0048895

5. Water will be used for the following purposes:

Amount 0.07 for IRRIGATION purposes from 04/01 to 10/31 (both dates inclusive)  
 (cfs or acre-feet per year)  
 Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)  
 Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)  
 Amount \_\_\_\_\_ for \_\_\_\_\_ purposes from \_\_\_\_\_ to \_\_\_\_\_ (both dates inclusive)  
 (cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) .07 cubic feet per second (cfs) and/or (b) \_\_\_\_\_ acre-feet per year (af).

7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. Existing well, hydrants, drip irrigation system  
 b. Height of storage dam \_\_\_\_\_ feet; active reservoir capacity \_\_\_\_\_ acre-feet; total reservoir capacity \_\_\_\_\_ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No  
 c. Proposed well diameter is \_\_\_\_\_ inches; proposed depth of well is \_\_\_\_\_ feet.  
 d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No  
 e. If well is already drilled, when? 8/28/2007; drilling firm Jafco Drilling;  
 well was drilled for (well owner) applicant; Drilling Permit No. D0048895

Received by KN Date 6-19-2020 Time 10:15 Preliminary check by \_\_\_\_\_  
 Fee \$ \_\_\_\_\_ Received by \_\_\_\_\_ Receipt No. \_\_\_\_\_ Date \_\_\_\_\_

For Department Use

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. \_\_\_\_\_
- Stockwatering; list number and kind of livestock. \_\_\_\_\_
- Municipal; must complete and attach the Municipal Water Right Application Checklist.
- Domestic; show number of households \_\_\_\_\_
- Other; describe fully. \_\_\_\_\_

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
8N	21E	28	3.6																3.6
			L2																

Total number of acres to be irrigated: 3.6

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 75-14518 for domestic use from same well. 75-7294B Salmon River Meadows Mutual Water Company. House may receive culinary water but no irrigation water is taken from this system.

- Who owns the property at the point of diversion? applicant
- Who owns the land to be irrigated or place of use? applicant
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: \_\_\_\_\_

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This right is for development of irrigated orchard and other crops in the place of use. Place of use also known as Lots 1, 2, 5, 6, 7, 8, 9, 12, 16, 17-18 Block 5 and Lots 40, 42, 43, 44, 45-46, 47 Block 1, Salmon River Meadows subdivision. Lots 45-46 and 47 were purchased last year from Baum.

13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

**The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.**
