

February 20, 2020

To: James Cefelo

From: Members of Deep Canyon Creek

Water Right 13-53

The Deep Canyon Water Right users have been working together for many years. We have always got along very well. We have pitched in and made decisions together. We have built and maintained the pipelines together. We have shared the expenses and irrigation times fairly. The pooling agreement of 1983 shows the division of shares agreed upon. Since 1994 Steven Chatterton has kept the records of expenses and divisions of such according to shares. Payment of these expenses shows agreement of all users or members of this informal company. We have called meetings when needed and followed a schedule of days of use.

As members of the informal Company of Deep Canyon Creek Irrigation, with water right 13-53, We agree that the rightful division of shares is the same that has been historically used and shown in an 8 day rotation as follows:

Chatterton Lazy JC Ranch	3/8	3 days of 8	37.5%
G&G Properties	2/8	2 days of 8	25 %
Rallison Family	2/8	2 days of 8	25%
Jensen Family (Wanda)	1/8	1 day of 8	12.5%

Previous to 1981, the shares were the same between: CW Chatterton, Willard Gibson, Doug Oliverson, and Wanda Jensen.

In a previous meeting with you, Mr. Budge, and the members of this company, the majority of members agreed that this was the correct and accepted division of water shares.

Enclosed are copies of the records of the scheduling and maintenance costs of the Deep Canyon Creek water lines, and notarized signatures of members who agree with this Division.

The division of days & Repairs is for the 1981 (upper) irrigation system. When water is comm. fast at the first of the season, water is caught in a 2nd diversion & sent to the 1965? (Lower) irrigation system. Later - Late June or Early July - We go on turns and the water all comes through the top line.

As a member of the informal Deep Canyon Creek Irrigation Company, I agree that the division of shares and expenses have been as follows for more than fifty years:

Chatterton Lazy JC Ranch	3/8	or	37.5%
G & G Properties (previously Gibsons)	2/8	or	25 %
Rallison Family Trust (previously Oliversons)	2/8	or	25 %
Wanda Jensen &	1/8	or	12.5%
Representative Casey Jensen			

We also agree to all attachments and appendages.

Franklin, ID 83237

March 16, 2005

Robert Silcock  
P.O. Box 1292  
Burley, ID 83318

Dear Robert Silcock:

The purpose of this letter is to demand payment of money owed regarding your Open Account.

On October 26, 2004, you incurred charges to your Open Account with me by purchasing Water dues for Deep Creek Irrigation. The current balance of this account is \$471.50.

In addition, on December 01, 2004, interest began to accrue at a rate of 21.00% per annum. As of March 16, 2005 the accrued interest you owe equals \$28.48.

You are now past due in making payment. Demand is made upon you for full payment of the following amount:

Principal Balance	\$471.50
Accrued Interest	\$28.48
<i>Total</i>	\$499.98

If payment is not made by April 11, 2005, legal action to enforce your obligations under the Open Account Agreement may be taken. Please give this matter your prompt attention.

You may contact me at the above address if you have any questions or need additional information. I can be contacted via e-mail at [dustyrdchatt@lds.net](mailto:dustyrdchatt@lds.net).

Sincerely,

Steven B Chatterton

Yes Mr. Silcock, an irrigation company was formed back in the eighteen hundreds by a group of men through verbal agreement and a hand shake. A handshake and a mans word is his seal and means much much more than all the signatures he could pen in a lifetime. For informational purpose only, I operate eleven farms with verbal contracts only and it works very well. As for the water in Deep Creek it is already filed on by the Maple Creek Irrigation Company. All we have are high water rights as is the case with every creek passing through your property. The only stream that flows year around (excluding the three culinary lines) through your property is Maple Creek in which you have no rights. The rest of the ditches and drains are for irrigation purposes and spring runoff only.

Later on, even before Dean Gibson, The Rallisons, or the younger Jensen boys were involved a pipeline was installed. The pipeline was put in because the water in Deep Creek sank a little below the upper tank. If it was ever proved that it reached Maple Creek underground then we would have to give it up.

Yes installing the pipeline was left up to the Chattertons to install hence has been left up to us to maintain throughout the years. As far as agreeing to pay maintenance costs that was implied when you opened the valve to use the water.

As for "calling the shots" that must be a term the big boys in the city use. Around here we call it pitching in and making things go and work for the benefit of all. That attribute was bred in from a long line of a heritage of men and women with forthright spirits and integrity of a magnitude of which you or I will never attain in this life. There is much higher law than the one that you are using to push around your ego. So if you feel the need to "call the shots" then come on down. But with that mantle also assume the charge and responsibility to deliver water to the rest of the share holders in a constant, timely and fair manner.

The bills and monthly accounts have been paid through my farm checking account and returned to my checking account when reimbursed in the fall. The Jensens paid \$235.75 on 11-03-2004 and the Rallisons paid \$471.50 on 11-15-2004. You may verify this with Randy Jensen (phone # 435-258-2672) and David or Doug Rallison ( 208-646-0906).

So whether are not you choose to pay this bill is up to you. My responsibility is to give you the opportunity to pay your debts in this life. You have the agency to act upon it or not.

Enclosed you will find another copy of last years maintenance and repairs and shareholders costs. Also a copy containing the water schedule for your renters of which they abused last year.
