WATER MASTER

Jeremiah Mattson will be the water master. Motion made by Roy Bunderson with a second by Sterling Wallentine. All voted in favor.

ADVISORY COMMITTEE APPOINTED BY THE CHAIRMAN

Sterling Wallentine, Richard Stocker, Jim Mattson

OTHER BUSINESS

The Southfield Irrigation Company has not used their ditch for irrigation purposes for more than five years. Robert Ward stated that they had put water in the ditch in the last two years but it had not made it far enough down the ditch to be put to a beneficial irrigation use. If the water is not used for five years the priority moves down to those users with a lower priority. They want to work on the ditch so that they can get the water to where it can be used. Richard Stocker suggested that the Company come up with a plan to get their ditch back in service. Richard Stocker made a motion with a second from Daryl Sleight that Southfield Irrigation Company develop a plan to get their ditch back in service prior to the next annual meeting of the Creek.

Roy Bunderson ask about the Rich Estate and R. W. Caldwell getting their points of diversion changed so that it matched where they actually take their water from the creek. The Rich Estate is working with IDWR to get a point of diversion added. RW Caldwell will need to prove ownership of the water right before their point of diversion can be changed.

The sink hole in the creek just below the spring needs to be eliminated. There is estimated to be 2 to 3 second feet of water being lost down this hole all of the time. Jim Mattson , Roy Bunderson, and Annette De Knif will look into what can be done to fix this problem.

Daryl Sleight is concerned about where the creek first divides. Over the years rocks have been moved back and forth to control the flow into the north or south channel depending on where the water was needed. He feels like there needs to be a permanent structure placed in the creek so that it can be regulated better. It was suggested that the diversion points below this split in the creek would be responsible to correct this problem.

Brent Lewis explained the water project that the City will do this summer. They will install a new transmission line from the spring to town and install a storage tank.

Meeting adjourned at 12:50 p.m. Motion to adjourn was made by Don Nye with a second from Sterling Wallentine. All voted in favor.
