The acreage, known as the Clarendon Hot Springs Ranch, is located northwest of Hailey, Idaho, south of Deer Creek Road, the two-way road providing access to recreation and rural residences opportunities. The main attraction to this specific property are the eleven water rights created by geothermal warm springs, the cold-water ponds and Deer Creek, which flows through the center of the property. The three geothermal wells have a maximum pumped capacity of 47,400 gallons of geothermal water coming out with a temperature range of 114 degrees to 127 degrees with an average of 120 to 124.7 degrees. The subject property has forty-five residential lots ranging in size from 0.13 to 0.68 acres with an average size of 0.331 acres that have already been platted to accommodate future residential building construction. In addition to the residential building envelopes, the subject has 11.76+/- acres zoned Recreational Development which allows for a density of 1 unit per 0.25 acre for an additional 47 units of possible future development. There has been some infrastructure in place to include heated lines throughout the roadways infrastructure to the building envelopes that are heated via geothermal and water systems in place.

These water rights are considered to be very adequate compared to operations found in the area.

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you. You will notice that attorney Edward A Lawson is copied on this letter, as he is listed as the attorney of record on 4 of the water rights listed above. Mr. Lawson can be removed from the water right records with written authorization from either you or Mr. Lawson's office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9908.

Sincerely,

Denise Maline
