I have enclosed the above mentioned permits which have been relinquished by the Department of Fish & Game. I am working on some others in Basins 71 & 72 which I may be able to clear up shortly. Let me know if you have any questions or if we need to proceed in a different manner.

On September 28, 1992, I was able to contact Mike McGowen, the new owner of the unscreened ditch in back of Brunos Cafe and discuss the ditch with him. He informed me that he has already closed the ditch from the diversion down river. I believe he put a road in where the ditch was because he talked about working with Hutchinson and running some of their cows on his place.

He already has set a power pole and transformer between the house and the river and is planning on installing a pump to sprinkle irrigate the place. In so doing, this will eliminate Johnson Ditch 1 & 2 and no need for a screen at that point. We do need to furnish the screen for the pump.

This is in reference to S-21 and S-21A.
