4. If the water rights and/or adjudication claims were split, how did the division occur?
- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: July 10, 2020

6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed IRS Form W-9 for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed Lessor Designation form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).

7. This form must be signed and submitted with the following **REQUIRED** items:

- ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
- ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
- ☐ Filing fee (see instructions for further explanation):
- ☐ \$25 per undivided water right.
 - ☐ \$100 per split water right.
 - ☐ No fee is required for pending adjudication claims.

Re: Change in Ownership for Water Right No(s): 67-250, 67-301

Dear Water Right Holder:

The Department of Water Resources (Western) acknowledges the receipt of correspondence changing ownership of the above referenced water right to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact our office at (208) 334-2190.

Sincerely,

Lynne Evans

I have attached the quit claim deed dated 2006 in which the home place was divided with my brother Lloyd Dibble. I later applied for the water right on the understanding that we would share the water, but that it would remain in my name and I would pay the fees for said water right as I would be using the majority of it. Lloyd eventually sold his portion of the land and a transfer of the water right was never discussed. I have remained the sole owner of this water right, 67-250.

Thank you
Debra Dibble

Debbie,

I got the email below. They are saying one of the permits is in your name but not your land. Did you sell some of the land or did you get permit on your dads land or something? Can we get the clarification that they are wanting?

Good afternoon Gary,

Thank you all so much for your patience on the processing of this water right change in ownership. The notarized bill of sale will do just fine for this ownership change. Water right no. 67-301 has been processed and changed to Marion Ogle's name. However, when we started on the other water right, no. 67-250, we came across an oddity we'd like to clarify with you and Marion before moving forward with finishing the ownership change.

Most of the time a water right is considered an appurtenance to the land it is used on, so when that land is sold to someone new, the water right goes along with it. Occasionally, a water right is granted to someone who doesn't own the land itself; for example, a homeowner's association may own the irrigation water right for a subdivision, even though the individual lots are all owned by other people. It looks like water right no. 67-250 is registered as owned by Debra Dibble, but the property it relates to is not. We need to know whether Debra does own the water right separately from the property, or if the water right and the property go together and have just never been updated as they changed hands.

We're hoping you or Debra could clarify for us if she owned that property at the time the water right was decreed to her in 2008. If she did not own the property, and the water right was decreed to her separately from the land, then we're good to go and we can complete the change in ownership to Marion Ogle. However, if she did own the property, we'll need to see if she retained the water right from any sales transferring the property to the new owners. Usually, that will be written into the deed as an exception, such as "excluding water right no. 67-250." Any documentation you can provide to support either conclusion would be very helpful as well.

If you have any additional questions about this, please don't hesitate to email me back or give our office a call. Thank you very much for your assistance.

Have a great afternoon,
