Re: Water Right Application 57-12022 – Amendment(s) Needed

Dear Applicant:

The Idaho Department of Water Resources (Department) received your permit application on August 17, 2020. Your application is considered complete by Department standards and therefore has been assigned the above-referenced number. Before the Department can continue processing your application, you must amend the following:

1. Section 5 – “Water will be used for the following purposes”

- Your usage requires a place of use greater than the domestic minimum of 0.5 acres. This means you will need to apply for irrigation water in addition to domestic water.
- Please add an irrigation purpose under the domestic purpose.
 - *Note: You can still apply for 0.04 cfs domestic water, and add a 0.02 cfs irrigation purpose (from 3/15 – 11/15). This will not change your total quantity listed in part 6 of your application.*

2. Section 9 – “Description of Place of Use”

- Please add an irrigation acreage to the place of use table.
- Include this total acreage amount under the table in the “Total number of acres to be irrigated” section.
 - *Note: It appears your total place of use is around 1-acre in total (domestic area with yard: 0.4 acres, irrigated tree area: 0.6 acres)*

With this letter, I enclosed your originally submitted permit application. Complete the necessary changes and deliver your amended application back to me in person or through mail at the address below. If you have any questions, please do not hesitate to call me at (208)-334-2109 or email me at anna.kaiser@idwr.idaho.gov.

You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

Sincerely,

Anna Kaiser
