Re: Notice of Intent to Correct Water Right No. 34-7543

To Whom It May Concern,

Water right no. 34-7543 was issued on February 6, 1994 authorizing the diversion of ground water for municipal purposes. Following the issuance of the license the Department of Water Resources (Department) became aware that the diversion rate authorized by the license may have been lower than the rate developed. The Department intends to issue an order to correct the diversion rate authorized by water right no. 34-7543 by increasing the rate to 0.44 cfs. The purpose of this letter is to provide you notice of this intent.

If you think the Department should not correct the water right license as proposed, you should contact this office in writing within thirty (30) days. If there are no concerns filed in this matter within thirty (30) days the Department will take the necessary steps to issue a corrected license. The corrected license will be issued as a preliminary order pursuant to section 67-5243, Idaho Code. The preliminary order will be mailed to you and you will have an additional opportunity to contest this action by filing a petition for reconsideration with the Department within fourteen (14) days of the date of the issuance of the preliminary order.

If you have questions regarding this matter, please contact me at 208-287-4925. Thank you for your attention to this matter.

Sincerely,

Phill Hummer
Water Right Supervisor
Idaho Department of Water Resources
