

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

**TRANSFER OF WATER RIGHT
TRANSFER NO. 84366**

This is to certify that: **TODD W CORMAN**
2565 S MILL POINT LN
BOISE, ID 83712-8512

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. A summary of the changes is also listed below. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document.

Summary of Water Rights Before the Proposed Changes

<u>Water Right</u>	<u>Origin/Basis</u>	<u>Priority Date</u>	<u>Diversion Rate</u>	<u>Diversion Volume</u>	<u>Acre Limit</u>	<u>Total Acres</u>	<u>Source</u>

CONDITIONS OF APPROVAL

- Domestic use is for 1 home.
- The domestic use authorized under this right shall not exceed 13,000 gallons per day.
- The quantity of water decreed for this water right is not a determination of historical beneficial use.
- Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
- The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
- Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for a water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right. See the [Application for Transfer Instructions](#) for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☒ Change diversion point(s) ☐ Add diversion point(s) ☐ Ownership change ☐ Ownership split
☐ Transfer is for changes pursuant to Idaho Code § 42-221.O.8. Attach an explanation and any supporting documentation.

1. APPLICANT(S) TODD CORMAN Phone 208-345-1699

2. MAILING ADDRESS 2565 MILL POINT LANE City BOISE

State TX Zip 83712 Email wybaybay@aol.com

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
- ☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
- ☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) are required for water right ownership changes; see Item 9 for the [fee schedule](#).

If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

- ☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 63-21899

- ☐ Attach a copy of the water right(s) as recorded, available at idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. **TOTAL AMOUNT OF WATER** transferred is .04 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at idwr.idaho.gov, *Water Rights, Water Right Transfers, Modeling Resources*.

[illegible]

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

DOMESTIC WELL TO SAVE 1 HOME

5 HPMA - VARIABLE SPEED PUMP, WATER FILTRATION SYSTEM IN PLACE

- b. Who owns the property at the point(s) of diversion? TODD CORMAN

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☐ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Todd Corman
Signature of applicant or authorized agent

TODD CORMAN
Print name and title if applicable

9. **FEE** – ☐ The application filing fee provided in Idaho Code § 42-221.O, must be submitted with the application for transfer. Applications for changes pursuant to Idaho Code § 42-221.O.8. require a filing fee of \$50 per water right. All other application fees are based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The Fee Schedule is available at www.idwr.idaho.gov, Water Right Transfers, Step 4 and in the Application for Transfer Instructions.

Re: Transfer No: 84366
Water Right No(s): 63-21899

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Rights is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Kelly", written over the word "Sincerely,".

Enclosure

CERTIFICATE OF SERVICE

I hereby certify that on September 25, 2020 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Transfer) to the person(s) listed below:

Re: Transfer No: 84366
Water Right No(s): 63-21899

TODD W CORMAN
2565 S MILL POINT LN
BOISE ID 83712-8512

Kensie Thorneycroft
Administrative Assistant

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 84366
FROM: Anna Kaiser
DATE: September 22, 2020
RE: Evaluation of Application

The transfer proposes to move the point of diversion (POD) closer to the place of use licensed under water right 63-21899.

The site is in Boise, Idaho (Ada County) directly north of Warm Springs Ave. near the intersection of Starview Dr. and Warm Springs Ave.

Contact person is the applicant- Todd Corman, 2565 Mill Point Ln., Boise, Idaho, 83712, (208).3451669, wybaybay@aol.com

Summary of Information Submitted

Authority to File:

Transfer 84366 was filed and signed in the name of Todd Corman. Corman is the current owner of water right 63-21899. The Department of Water Resources (Department) changed ownership of water right 63-21899 from Hamsterdam Enterprises LLC to Todd Corman on July 1, 2020 prior to the processing of this transfer.

Water Right Validity:

The right is presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by the Department's aerial imagery.

Injury to Other Water Rights:

Water right 63-21899 exists within Basin 63 Groundwater Restricted area. The applicant proposes to fill in his existing well before drilling the new well at the proposed POD. Furthermore, the transfer proposes the new POD only approximately 100 feet away from the current POD. A 100-foot POD transfer will likely not affect groundwater availability in the area.

Enlargement of Use:

Transfer proposes no changes in place of use, or nature of use so enlargement is not a concern.

Local Public Interest:

No evidence suggests changes proposed by transfer 84366 will contradict local public interest.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Application for Permit No. 63-34951 & Application for Transfer of WR(s)

Dear Applicant,

The Idaho Department of Water Resources (Department) received your water right application and transfer application on August 17, 2020. Your application for permit is considered complete by Department standards and has therefore been assigned the above-referenced number. Your transfer application is considered incomplete and is therefore being returned to you at this time. This letter serves two purposes- to request additional information on your permit application (items i – iii below) and to provide information about options for your incomplete transfer application (item iv below). Please address the following items:

i. Boise Front Ground Water Management Area (GWMA) – information needed

Your permit application proposes a groundwater usage within the Boise Front Low Temperature Geothermal GWMA. The GWMA was established by the IDWR Director in 1987 to protect low temperature geothermal ground water (85 to 212 °F) from further adverse impacts. Impacts can include a reduction in the quantity, temperature and/or pressure of low temperature geothermal water. These impacts can potentially injure senior water rights using that source. Junior (new) water rights should not injure senior water rights.

IDWR recognizes three distinct aquifer systems in the area as follows: a shallow cold water source, a deeper cold water artesian source, and a still deeper low temperature geothermal artesian source. The faulted and fractured nature of the subsurface in this area creates zones within the GWMA where the low temperature geothermal source is interconnected with one or both of the cold water sources. The extent and location of these interconnected zones is not precisely known but can occur for wells 300 feet or more in depth. Therefore, the order establishing the GWMA included all ground water with a temperature greater than 85°F plus colder ground water 300 feet or more below land surface.

Your application proposes a cold water well at least 300 feet deep. Please submit information demonstrating the degree of interconnection, or lack thereof, between the cold water source being sought and the protected low temperature geothermal source in the specific area from which ground water is to be diverted. This information is needed to determine if the application is approvable with respect to GWMA criteria

ii. Ground Water Restricted Area (GWRA) – information needed

Your permit application proposal also involves a point of diversion within an area where new appropriations of water from the Boise River system (including ground water less than 200 ft below ground surface considered tributary to the river) are not approvable since the Boise River system in this area is considered fully appropriated. IDWR policy states that applications for consumptive use that propose diversion of water in this portion of the Boise River system will be held without further processing unless the applicant can show that the new appropriation will not injure existing users or that injury will be avoided through some mitigating practice that completely offsets the impacts (in time, location, and quantity) of the proposed use on the water supply of other users.

Based on the information above, the following are the options with regard to your application:

- a) You may provide evidence the use will not injure existing water right users.
- b) You may provide an acceptable mitigation plan to offset injury to existing water right users.
- c) For groundwater appropriations, you may agree to a condition on an approval that prohibits the use of ground water from less than 200 feet below ground surface.
- d) You may withdraw your application (form enclosed).

If you choose option b, please provide a detailed plan to mitigate the depletion expected by the proposed use. The plan should describe the expected depletion to the Boise River from the new appropriation, and should describe how that depletion will be mitigated at the appropriate quantity and time. IDWR Application Processing Memorandum #71 and #72 describe various types of mitigation and the criteria for evaluating mitigation plans (copies enclosed for your reference).

iii. Application for Permit Item 9.b. – “Description of place of use” (table correction needed)

The place of use (POU) provided on the table does not match the POU outlined on the map included with your application. The NWSW description is in the wrong box. With this letter, I attached a copy of page 2 of your application marked with the recommended correction. Please correct your POU table and return to the department.

iv. Transfer Application

Before the Department can consider your transfer, you must address the following items:

1. *Demonstrate a need for a second well*

Your transfer application proposes adding a point of diversion to water right 63-21899. This water right exists in the GWRA discussed in this letter above. Therefore, if you do intend to add a point of diversion to your existing point of diversion, you must demonstrate a need for your proposed second well.

2. *Application Item 4 – “TOTAL AMOUNT OF WATER...”*

- Complete item 4 on the transfer by providing the cfs of water involved in the transfer. This will be the cfs of water allocated through water right 63-21899 (0.4 cfs).

3. *Application Item 7 – “MAP”*

- You must include a map showing your proposed changes.
- Both PODs proposed & the POU of your water right must be included on the map.
- With this letter, I enclosed a Department-generated aerial map of the area described on your application form. Please outline the POU and mark all proposed PODs on the enclosed map and included with your application.

4. *Application Item 9 – “fee”*

- If you intend to add a point of diversion to your water right via transfer, you must submit an additional \$150.00. (For your reference, I enclosed the Department’s transfer fee schedule.)

Please submit all the requested information, corrections, and additional fees in person or by mail to the Department’s Western Regional Office (addressed below). You may seek additional time to provide the information by making a written request to interrupt processing for up to six (6) months. Your response including the requested information or a request for more time to seek the information, must be received within the next sixty (60) days. The permit application will be voided without a timely reply. Please note, refunds are not issued for voided applications. The transfer application will be refunded without a timely reply.

Department forms and other information are available online at www.idwr.idaho.gov. Please do not hesitate to call me at (208).334.2190 or email me at anna.kaiser@idwr.idaho.gov

Sincerely,

Anna Kaiser
