6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Headgate on Teton Creek. Diversion has a measuring device. POD is where the canal enters Idaho. Actual POD in WY is T44N R118W, Sec. 29, NWNW. Price-Fairbanks & Center Canal will no longer be used by above WRs.

- b. Who owns the property at the point(s) of diversion? N/A

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Grand Teton Canal has existed since the late 1890s and exists by virtue of a prescriptive easement.

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. You may create a map at idwr.idaho.gov, *Water Rights, Water Right Transfers, File a Transfer Application, Step 2C*.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

9. **FEE** – ☒ The application filing fee provided in Idaho Code § 42-221.O, must be submitted with the application for transfer. Applications for changes pursuant to Idaho Code § 42-221.O.8. require a filing fee of \$50 per water right. All other application fees are based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The Fee Schedule is available at www.idwr.idaho.gov, *Water Right Transfers, Step 4* and in the Application for Transfer Instructions.

Subject: Application for Water Right Transfer to Change Point of Diversion for Water Right 22-153, 22-11981, 22-13611, and 22-13613 From the Price-Fairbanks Canal to the Grand Teton Canal.

Driggs Acquisition LLC is the owner of Water Right Nos. Water Right 22-153, 22-11981, 22-13611, and 22-13613. These water rights are currently authorized to divert water from the Price-Fairbanks Canal, which has its heading in the SESE of Section 19, T05N, R36E. A downstream portion of the Price-Fairbanks Canal is part of Grand Teton Canal Company Limited ("GTCC") delivery system.

For many reasons, Driggs Acquisition LLC has determined that it would be beneficial to divert the above-referenced water rights at the canal heading for the Grand Teton Canal located in Wyoming at the NWNW of Section 29, T44N R118W (and Lot 1, NENWNE of Section 20, T05N, 46E where the system enters Idaho).

Driggs Acquisition LLC hereby consents to GTCC filing a transfer application to change the point of diversion of the above-referenced water rights from the Price-Fairbanks Canal to the Grand Teton Canal.

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 DAYS of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 DAYS from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Subject: Diverting Idaho Rights in Grand Teton Canal

Kevin,

We recently received an Application for Transfer proposing to change the point of diversion for eleven water rights, which are currently diverted in Idaho, to the headgate of the Grand Teton Canal in Wyoming. The cumulative diversion rate for the rights being moved is 26.30 cfs. The water rights bear priority dates ranging from 1899 to 1987. When you get a moment, please give me a call. I would like to discuss whether this change is even possible. I have reviewed the Roxana Decree and don't see any problems there. Because the water rights will be diverted through the Grand Teton Canal and the Grand Teton Canal counts against Idaho, it shouldn't matter whether the Idaho rights were diverted in Idaho (at their original headings) or through the Grand Teton Canal. I know Wyoming and Idaho came to an agreement on regulation on Teton Creek a couple of years ago. Would this change be consistent with the agreement? Will Wyoming require these people to file for a water right in Wyoming?

RE: *Application for Transfer of Privately Held Water Rights in the Price Fairbanks and Central Teton Canal to the Grand Teton Canal Company System.*

Dear Michael:

Enclosed for processing is an *Application for Transfer* which proposes to amend certain water rights currently authorized to be diverted into the Price Fairbanks and Central Teton Canal systems to be diverted through the Grand Teton Canal Company system. The water rights subject to the proposed transfer are summarized on the attached spreadsheet. We have also included signed consents from each of these private water right holders consenting to this transfer. Please note on some of the consents we provided a *Proof Report* of the water right from the Department, and some have noted changes to their address on the *Proof Report*. In my view, this would be adequate to change the address on these water rights without the need to submit the official Department form for changing the address especially where there is no associated filing fee. My thought is to update the addresses accordingly, but I will leave that up to the Department.

We have also included a filing fee in the amount of \$2,300.00 as the total amount of water rights being transferred is 26.3 cfs. If we have miscalculated this fee, please let us know.

We appreciate your attention to this matter. If you have any questions concerning this transfer, please give me a call.

Best regards,

Robert L. Harris
