Jean, thanks for your diligent review of the applications. I agree on both accounts. The NE quarter of Section 9 is in 2-10477's POU, not 10035s, and I neglected to account for the unirrigated swale in the SENE of Section 10. Please proceed to process the applications with the changes indicated in your email. Thank you,

I am in the process of reviewing the WSB Lease applications for ATN Holdings. On the map & application for 2-10035, there are acres located in T06S, R09E Section 9, NE quarter that are not a part of the POU of this water right. Those acres are listed on the application for 2-10477 so I subtracted the 32 acres from the total acres on the application for 2-10035.

Also, in the map for 2-10035, T06S, R09E Section 10, SENE, 8 acres were offered for lease. There are only a total of 33 acres in this QQ. It appears in the past, at least 30 acres have been irrigated which would leave only 3 acres for lease. This takes the number of acres offered for lease to 166.

Please let me know if these numbers make sense to you. I will hold processing until I hear from you. Thank you.

13 Narrative: The Department received these applications on August 11, 2020. The applicant wishes to place portions of both water rights in the Bank for the 2020 season. Applications were signed by Mark Noble, member of MAN Farms, LLC. The portions being offered to the Bank do not appear to have been irrigated this season through aerial photography. Different combinations of the pivot corners have been in the Bank since 2012. Forfeiture is not an issue. This lease, 1234, must be rented in combination with WSB Lease 1236 (ATN Holdings) due to combined conditions. These rights are currently within WD 2.
