Attachments: Watermaster Recommendation Form.docx

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: <https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office by **10/05/2020**.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by **10/05/2020**, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application. These applications were amended and are being re-advertised.

RE: Application for Permit No. 67-15358, 65-15359, 65-15360, 67-15361

Dear Applicant(s):

A legal notice of the applications has been prepared and is scheduled for re-publication in the UPPER COUNTRY NEWS REPORTER on 9/17/2020 and 9/24/2020 due to the applications being amended. Protests to these applications may be submitted for a period ending ten (10) days after the second publication. **Note that existing protests remain active and these protestants do not need to re-file their protest.**

Enclosed is a copy of the protests already filed against the issuance of the above-referenced applications. As part of the application process, the following are options available for resolution of contested (protested) applications:

-Direct contact with the protestant to determine what is being disputed in the application and parties attempting to resolve the protest. Sincere conversation between the parties prior to initiation of formal proceedings can often resolve protest.

-Formal Proceedings consist of a pre-hearing conference & hearing through the water appropriation statute/rule process. A pre-hearing conference identifies the protest issues and reviews the resolution possibilities with the parties. If the issues cannot be resolved, a formal hearing will be scheduled.

-Mediation through a certified professional mediator. The advantages can include: reduced costs and time that are associated with formal proceedings, the ability to address non-water concerns, more influence over a final settlement, and fast track processing by the Department for parties reaching a mediated agreement. If you are interested in this option, please contact our office for details.

Please consider with the protestant the best option for resolution of the contested application. If the amended application resolves the protest, please send the Department a withdrawal of protest.

If the application is protested during the second round of advertising, you will be sent a copy of each new protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

Please contact this office if you have any questions regarding the application.

Sincerely,

Kensie Thorneycroft
Administrative Assistant
