(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

MEMORANDUM

Date: August 26, 2020
To: Transfer # 84262 File
From: Benny Walker
Re: Evaluation of Sufficiency of Information Submitted

Application proposes creating an 84 acre permissible place of use (PPU) on a farm located approximately 4.3-4.6 miles west and 2.9-3.4 miles south of the City of Richfield. Water right 37-1126 will allow for the irrigation of 40 acres within the 84 acre PPU. The right involved with the application is located within Water District 37 so watermaster comments were solicited and no comments were received.

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

- **Authority to File:**
The applicants are listed as the current owner of the water right involved in the transfer according to department records.
- **Water Right Validity:**
The right involved with this transfer was decreed in the SRBA. Aerial photography indicates that the land involved with the transfer has been irrigated in recent years.
- **Injury to Other Water Rights:**
None anticipated. Watermaster comments were solicited, and no remarks were received.
- **Enlargement of Use:**
None anticipated. Irrigation is limited to the allowable acres within the PPU.
- **Local Public Interest:**
Department staff found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
No issues anticipated
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
