Re: Notice of Change in Water Right Ownership No: 57-10525

Dear Water Right Holders:

The Department has received and processed a Change of Ownership for a portion of your original Water Right. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is created to represent the portion obtained by the new owners. Please note your original water right numbers do not change as a result of these splits. For your records proof report for **67-10525** and map depicting the place(s) of use (POU) after split and the point(s) of diversion (POD) are enclosed.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

Sincerely,

Anna Kaiser

Re: Notice of Change in Water Right Ownership No: 57-11711 & 57-10525

Original: Water Right Nos. 10525

Split into: Water Right Nos. **57-12017**

Dear Water Right Holders:

We have received and processed a Change of Ownership for a portion of the original Water Right as referenced above. This Change of Ownership required a split of the original water right.

When a portion of the original water right has been conveyed to another, a new water right number is created to represent the portion obtained by the new owners. For your records proof report for **65-23939** and a map depicting the place of use (POU) and the points of diversion (POD) is enclosed. Please refer to your new water right number when corresponding with our office.

Ownership change for water right no. 57-11711 cannot be processed. Department records show the 4 acres of irrigation allocated by water right 57-11711 exist entirely outside your property, and therefore cannot be fully or partially granted to you. The Department will refund you \$100.00.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

RE: Notice of Change in Ownership for Water Right No(s): 57-10525, 57-11711

Dear Interested Parties,

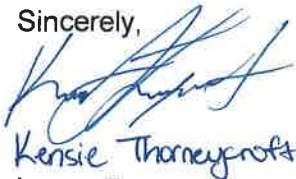

The Department of Water Resources (Western) acknowledges the receipt of correspondence changing the ownership of the above referenced water right(s) to you. The purpose of this letter is to request clarification regarding the above referenced Notice of Change in Ownership.

Upon review, the Department found that the deed that you provided does not cover the entire place of use (POU) for the above mentioned water rights. Based on the information provided to the Department, the right may need to be split. If you do own the entirety of the water right, please submit a deed conveying ownership of the land not included within the deed that was provided to the Department with your application. A proof report for the water right along with a map is included to illustrate where the portion of the POU lies outside of the property conveyed on your provided deed.

If you do not own the entirety of the water right, an additional fee will be required to process the split change in ownership. The filing fee for a Notice of Change in Water Right Ownership is \$25 per undivided water right or a fee of **\$100 per split water right**. The \$25 per right already submitted to the Department will be applied towards the balance.

If you have any questions regarding this matter, please contact our office at 208-334-2190.

Sincerely,
