RE: Water Right Permit No. 97-7309

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit(s) referenced above prior to issuing water right license(s). By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit(s) have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Idaho Code § 42-211. Before license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit(s):

☒ Point(s) of Diversion

☒ Place(s) of Use

☐ Other

The permitted Place of Use was updated, with irrigation acreage changed to reflect actual irrigation per  $\frac{1}{4}$   $\frac{1}{4}$  section at time of licensing review. A second Point of Diversion was added after field exam, as applicant was diverting water from two separate points along Blue Creek.

The enclosed Application for Amendment form(s) depicts the elements of the water right(s) as they will appear on the license(s) when issued. Please review the amendment form(s) carefully. If you concur with the information presented, please sign and return the form(s) with the filing fee of \$100.00 within fourteen (14) days.

If you have any questions, please call me at (208) 762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read "LB", enclosed within a hand-drawn oval.
