**WATER RESOURCES
WESTERN REGION**

Water District # Water District No. 65

Application # 65-23936

Applicant Name Randy Hall

Watermaster Recommendation:

- a) I do not oppose approval of this application.
- b) I do not oppose approval of this application if it is conditioned as follows:

- c) X I oppose approval of this application for the following reasons:

Anderson Creek has a heavy Water Right demand at present causing the flow to be very minimal during the latter part of the season. Because of the inefficient function and operation of small ponds, I am reluctant to support aesthetic use of water that will interfere with prior water rights.

- d) X Additional comments:

For this situation I believe a stock tank would serve the livestock more efficiently and leave more flow in Anderson Creek.
