Enclosures: Proposed Lease Contracts

Memorandum

To: Water Rights 2-10427 & 2-10432

From: Justin Ferguson

Date: January 21, 2020

Re: Water Supply Bank Lease Application 1609

Purpose/Narrative: An application was received from Mr. Roger Young on December 30, 2019 offering portions of water rights 2-10427 & 2-10432 for lease to the Bank. From a review of the previous lease application it appears Mr. Young has submitted the same information as a renewal package of the same portions through the end of 2024. The rights are surface water rights from the Snake River and appear to be rented often, most recently by Owyhee Farming.

Authority to File: The applications were signed and submitted by Mr. Young, current owner of the two water rights. No concerns at this time.

Water Right Validity/Forfeiture Evaluation: The rights were initially decreed through the SRBA in 2010 and placed into the Bank in 2016. This would mean that, while a five year period did elapse, per the "Multiple Programs Memo No. 2 – Forfeiture Review Period" the applicant took action in the sixth year such that forfeiture is prevented.

It is important to note the forfeiture period is only tolled, not reset, when a right is taken into the Bank. This would mean that, upon the expiration of the contract, the applicant would have to take immediate action or continue to lease the right to the Bank to toll or prevent forfeiture.

Injury Evaluation: No injury is apparent through the lease, proper rental review should protect against injury.

Enlargement of Use: No enlargement is apparent through the lease alone, conditions will be added to the contract to limit the extent of the unleased portions of the two rights.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.
