$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses: Domestic, 1 home indoor use only. 0.6 Af per Application Processing Administrative memo # 22.

G. NARRATIVE/REMARKS/COMMENTS: ArcMap and Bonner County confirmed Widel as current owner. I spoke with Mr. Widel and he has not built a cabin on the property but he does bring a trailer/RV and uses the water for that. He also replied to an email regarding this. The POD for this right is also the POD for 96-9399. They will use a shared system. Assume fish screen is installed with submission of proof. This permit is for internal use only. There is a combined condition with water right 96-9400 of 0.02 cfs, which is in the process of being licensed also. I removed condition # 7 of the permit and replaced it with the standard department condition # 020.

Have conditions of permit approval been met? ☒ Yes ☐ No

Jean,

I am Dale Widel, owner of the property and has permit 96-09400.

Andy Walker is my neighbor who has the house just over the hill and shares the water line pickup point, but has a separate permit .

I hope to one day have a vacation cabin on my property but for now it is just a camp site with one frost free spicket .

I hope that this clarifies things.

Andy,

You are listed as the person to contact for Mr. Widel's field exam and I was wondering if you can help me.

The Department of Water Resources is in the process of reviewing permit 96-9400 for licensing. This permit qualifies for an in-house exam. The beneficial use for 96-9400 is indoor domestic use. There does not appear to be a home or cabin constructed on the property. Is there an RV or trailer hooked up to the system? If you have pictures of the system hooked up to an RV or trailer, they would be helpful. Please let me know within 14 days or steps may be taken to void this permit. You can provide the information by responding to this email. Thank you.
