Thank you for responding so quickly. Also, the Department wanted to remind Mr. Bonson this permit is for in-house use only. There is not an irrigation component to this water permit.

The Department of Water Resources is conducting an in-house exam to license water permit 85-15798. During the review, it was determined that additional information is needed before we can continue.

- Your permit requires that a fish screen of ¼ inch or smaller be installed & maintained at the point of diversion. Has this screen been installed?

Please provide the additional information within 14 days so the Department can continue processing your license. If you have any questions, please contact me at the number below. Thank you.
