Re: Application for Permit Unacceptable for Filing (Rule 35 Application Requirements)

Dear Applicants:

Idaho Department of Water Resources (IDWR) received your Application for Permit on July 30 2020 to divert water from the Pend Oreille River at Bonner County parcel RP57N03W269930A. **The Application is unacceptable for filing because the Application map was received with no markings or labels identifying the Place of Use, Section number, Township and Range or Quarter Quarter.** The status of your Application was conveyed to you by telephone and an IDWR e-mail on July 31, 2020.

Please disregard this letter if you have already taken corrective action to correct the Application. Your **corrected Application with map must be received no later than September 8, 2020.** IDWR will take steps to terminate your Application, if no response is received, pursuant to Idaho Code § 42-204.

Mr. Schuler:

Your original map did not have any legal descriptions on it. Please refer to the attached example map and print out the attached color map that has legal descriptions on it for labeling. Please initial and date your labeled map with the location of the Point of Diversion and Place of Use.

Please return the map you have labeled and the photocopy of your Application after you have added 'Columbia River' as the tributary on Line 3. Please initial and date the 'Columbia River' using a pen color other than black.

Please return the new map and copy of the Application with 'Columbia River' written in to me at the address shown below.

Thanks,
