RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

- 1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
- Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements
 of the water right, or improve the status of the right including the notion of resumption of use. It does not
 preclude the opportunity for review of the validity of this water right in any other department application
 process.
- 3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
- 4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
- 5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
- 6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
- 7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.

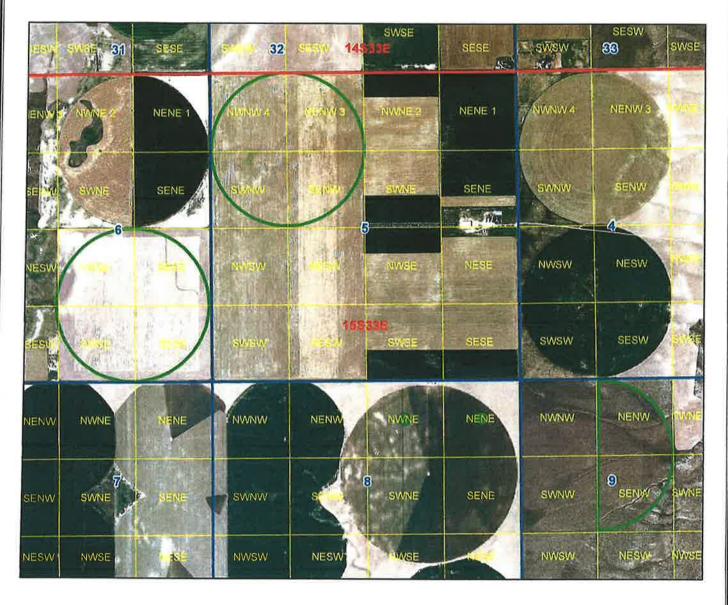

WATER SUPPLY BANK RENTAL AGREEMENT No. 452

- 8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
- 9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
- 10. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
- 11. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
- 12. The rented portions of rights 17-2028, 17-2045 and 17-7007 when combined shall not exceed the irrigation of 289.3 acres.
- The rented portion of rights 17-2028 and 17-7007 when combined shall not exceed the irrigation of 220 acres.
- 14. The rented portions of rights 17-2028, 17-2030, 17-2045 and 17-7007 when combined shall not exceed a total diversion rate of 4.17 cfs, an annual diversion volume of 1085 AF and the irrigation of 310.0 acres.
- 15. Rights 17-2045 and 17-7007 when combined shall not exceed a total diversion rate of 2.94 cfs.
- 16. Rights 17-2028 and 17-2045 when combined shall not exceed the irrigation of 140.2 acres.
- 17. This rental does not authorize the construction of a well.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

Amended

A. Are you requesting to rent specific water rights?

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Dear Renter:

Please find enclosed a receipt in the amount of \$ 2,657.00 and a copy of a fully executed Water Supply Bank Rental Agreement of 224.0 acre-feet of water for irrigation of 118 acres for rental 430 and 1,085.0 acre-feet of water for irrigation of 310 acres for rental 452. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

A rental fee of \$487.00 for rental 430 and \$2,170.00 for rental 452 was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 244.0 acre-feet for rental 430 and 1,085.0 acre-feet for rental 452. Since you have a private agreement with the lessor you are only obligated to pay the 10% administrative fee or \$487.00 for rental 430 and \$2,170.00 for rental 452.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

TIME SENSITIVE RESPONSE REQUIRED

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. I have enclosed a Water Supply Bank Rental Agreement for your review and signature. Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$487.00 for rental 430 and \$2,170.00 for rental 452 was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 244.0 acre-feet for rental 430 and 1,085.0 acre-feet for rental 452. Since you have a private agreement with the lessor you are only obligated to pay the 10% administrative fee or \$487.00 for rental 430 and \$2,170.00 for rental 452. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$2,657.00 made payable to the Idaho Department of Water Resources, together with the signed rental agreements, within 14 days so I can complete processing.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

MEMORANDUM FOR LEASE CONTRACT # 1202 AND RENTAL AGREEMENT 452

To: Water Right(s) 17-7007, 17-2045, 17-2030, 17-2028

From: Alex Dalgleish

Date: 5/26/2020

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received a lease/rental companion package on 3/10/2020. Holbrook Farm, LLC (Holbrook) proposed to lease a total of 359.4 acres from groundwater rights 17-7007, 17-2028, 17-2030 and 17-2045 for the 2020 year through application number 1665. CSS Potato Farms, LLC (CSS) requests to rent 310 acres from these leased rights through application number 1678.

Prior 1 year terms in 2016, 2017, 2018 and 2019 have been approved to lease in partial amounts of the 4 rights.

The lease applications originally proposed to offer 115.1 acres of right 17-2020, 33.6 acres from right 17-2030, 112.5 acres from 17-2045 and 242.2 acres from 17-7007. These acres are appurtenant to end-guns and pivots in multiple QQ's of Sections 7, 8, 17 and 18 in Twp. 15S Rge. 33E.

The rental proposes applying the leased rights to 120 acres in SE Q of Sec.6, 120 in the NW Q of Sec. 5 and 60 acres in the NENW and SENW QQ's of Sec. 9 all of which are in Twp. 15S Rge. 33E. The rental request is for a total of 4.17 cfs, 1085 AF and 310 acres. Greg Sullivan of Brockway Engineering PLCC is listed as the representative for Holbrook and CSS and he completed the lease and rental applications on behalf of the applicants. A private agreement between the lessor and renter was included with the rental application clarifying that CSS has paid an annual farm contract for 2020 to Holbrook. There will be no fees paid to the Bank for the rental except for the 10% processing fee which will be paid by CSS upon signature of the rental agreement.

A discrepancy was encountered regarding the proposed lease amounts from the cover letter and the additive amounts from the applications. The cover letter submitted with the lease applications stated that Holbrook Farms wished to lease in a total of 359.4 acres from the 4 rights. However, the total amounts proposed for lease when added together from each application totaled 503.4 acres. An email was sent to Greg on 5/8/2020 requesting clarity on the leased amounts. He responded on 5/11 stating that Holbrook intends to lease an increased acreage of 533.3 acres for 2020. He emailed updated lease application pages representing the increased lease amounts for each right. The updated amounts on the applications totaled 747 acres which is still more than the updated 533.3 acres requested to be leased in. I believe this continued difference in requested leased acres verses the additive acres is due to the existing rate and acre combined limits of 16.53 cfs and 1230 acres (0.134 cfs/acre) on rights 17-2028, 17-2030, 17-2045 and 17-7007. The updated leased acres from the rights are 170.8 acres from 17-2028, 49.9 acres from 17-2030, 166.9 acres from 17-2045 and 359.4 acres from 17-7007. The additive amounts proposed from the 4 rights are 7.41cfs, 1866.5 AF and 747 acres which provides approximately 0.01 cfs/acre (7.41cfs/747acres). Reducing the leased acres to 533.3 would decrease the rate/acre to 0.138 which is higher than the existing limit of 134 cfs/acre. So in addition to reducing the acres from 747 to 533.3, the leased rate would also need to be reduced from 7.41 to 7.17 in order to remain consistent with the leased rights rate/acre limit of 0.134. The reduced rate of 7.17 divided by 533.3 acres equates to 0.134 cfs/acre.

AUTHORITY TO FILE: A Designation of Agent and Grant of Authority was included with the lease applications. This document designates Brian Uken as an agent for Holbrook Farm with

the authority to execute documents on their behalf. Furthermore, the lease application included an annual report from 4/23/2019 which listed Paracorp Incorporated as the commercial registered agent. All four lease applications were signed by Trent Munden on behalf of Holbrook. There appeared to be an issue with the signature authority for the lease applications as Mr. Munden was not listed as a registered agent or described in any agreement granting him authority to act on behalf of Holbrook.

The rental application was also signed by Trent Munden. However, the companion rental application from CSS Farms included a declaration signed by Reagan Gabner who is a managing partner for CSS. This declaration provided signing authority to Trent Munden for all documents relating to water right applications. A review of CSS Farms annual report with the Idaho Secretary of State shows Reagan Gabner listed as one of the managing partners. Also included with the rental application was a contract of agreement between CSS Potato Farms and Holbrook, which grants CSS Potato Farms the authority to use the property, water distribution system and all associated water rights owned by Holbrook at the proposed rental place of use (POU). Water rights 17-2028, 17-2030, 17-2045 and 17-7007 proposed for lease were specifically listed in the agreement. So, Holbrook appears to have granted CSS Potato Farms the authority regarding the leased rights and in return, CSS has granted Trent Munden the authority to sign water right applications on the company's behalf. This chain of documentation of authority should be sufficient to allow Mr. Munden to sign the lease applications on behalf of Holbrook.

According to Department records, Holbrook owns the land at the leased POU and points of diversion (POD's). There are no concerns with the authority to file the lease proposal. Department records indicate that CSS and Brad Wolstenhulme own the property at the requested rental POU and points of diversion (POD's). A farm lease was included with the rental application providing Mr. Wolstenhulme as landlord over tenant CSS. There are no concerns with the authority to file the rental request.

WATER RIGHT VALIDITY:

All four leased rights are owned solely by Holbrook Farm, LLC. Rights 17-2028 and 17-2030 were decreed on 4/11/1979 while right 17-2045 was licensed on 2/26/1982 and 17-7007 was licensed on 6/20/1983. A transfer (# 78281) in 2013 placed the four rights proposed for lease in a 1230 acre PPU. Using 2019 sentinel imagery, it is evident that the leased acres in 2019 have not been irrigated and thus Holbrook has complied with their prior lease contract. According to the lease applications, portions of the water rights not leased to the Bank have been used for irrigation annually. Aerial imagery from 2015, 2017 and 2019 confirms that the other pivot acres authorized by the leased rights have been irrigated. There are no concerns with the validity of the leased rights.

INJURY TO OTHER WATER RIGHTS: No injury is anticipated through the lease and rental of rights 17-2028, 17-2030, 17-2045 and 17-7007. The rental proposes to move the water from Sections 7, 8, 17 and 18 to Sections 5, 6 and 9, all of which are in T15S R 33E. The leased rights authorize the diversion of water though 5 wells and the rental proposes to use two of these 5 wells. The rented water will be applied over two 120 acre pivots and one 60 acre half-pivot. The lease and rental areas are within the Curlew Valley Critical Ground Water Area. Injury to other water rights is not expected through this companion lease and rental proposal.

ENLARGEMENT OF USE: As discussed at the beginning of the memo, together the four leased rights are limited to the combined irrigation of 1230 acres and 16.53 cfs (0.13 cfs/acre and 3.5 AF/acre). To avoid enlargement, the leased rate and acre amounts will be limited to 7.17 cfs and 533.3 acres in order to maintain the existing rate and volume per acre restrictions on the 4 rights. Additionally, the leased volume/acre equates to 3.5 AF/acre. The rental request of 4.17 cfs, 1085 AF and 310.0 acres remains consistent with the 0.13 rate/acre and 3.5 volume/acre limits of the leased rights. The unleased portions of each right will have remaining

limits in order to avoid enlargement. The combined unleased portions of the 4 rights will be limited to 9.36 cfs, and 696.7 acres (combined leased rights limit of 16.53 cfs – total lease of 7.17 cfs= 9.36 and combined leased rights limit of 1230 acres- leased acres of 533.3= 696.7 acres).

The rental of rights 17-2028, 17-2030. 17-2045 and 17-7007 will also maintain the existing combined rate and acreage limits to avoid the possibility of enlargement. From the four leased in rights, the rental requests a total of 4.17 cfs, 1085 AF and 310 acres. However, when the rental amounts requested from each right are added together, their total is 4.31 cfs, 1085 AF and 432.2 acres. Taking the portion, or percentage, of the requested rented rate and acres amounts to approximately 91% of the rented rate and 71% of the rented acres (4.17/4.31=97% and 310/434.2=71%). Therefore, the rental amounts will be limited to the appropriate rental proportions.

For example, the rental requests 99.3 acres from right 17-2028 and 97.0 acres from 17-2045, which totals 196.3 acres. Taking the requested rental acres from each right and multiplying it by 71% amounts to 70.9 acres for 17-2028 and 97 acres for 17-2045. Together, these rights are limited to the rental of 140.2 acres (70.9+69.3=140.2)

Re: CSS Potato Farms, LLC

Dear Mr. Buyer:

Holbrook Farm, LLC has applied to lease a portion of ground water rights 17-7007, 17-2028, 17-2030 and 17-2045 into the Idaho Water Supply Bank for the upcoming irrigation season.

CSS Potato Farms, LLC has entered into a farm lease contract for the property. CSS Potato Farms, LLC desires to rent 310.0 from water rights 17-7007, 17-2028, 17-2030 and 17-2045 for the 2020 irrigation season.

Holbrook Farm, LLC and CSS Potato Farms, LLC have entered into an agreement that states that Holbrook Farm, LLC has already been paid by CSS Potato Farms, LLC for the rental of the 310.0 acres. No rental payment will be made to the Idaho Water Supply Bank for the 90% of the rental amount that would normally go to the water right owner. A 10% rental processing fee will be paid to the Idaho Water Supply Bank when the final rental agreement is signed for 2020.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., Engineer
