August 14, 1996

Triple J Ranch  
C/O Dallas Jurak  
HC 62 Box  
Dubois, ID 83423

Dear Juraks:

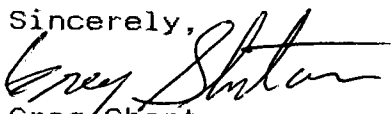

I am writing you out of some concern for some practices and encroachment of other people's water rights, by your family on the Medicine Lodge Creek.

On two occasions, one in 1994 and one this year, August 8, 1996. You were illegally pumping water from Medicine Lodge Creek. Don and myself have talked to you and asked you to shut off your pump, which you did in both instances.

You are fully aware of the fact you don't have a decreed water right on this stream and that only rarely would you be able to divert from this stream. This was also the case of you pumping from this stream ever since you put the pump in this Creek. We are very tolerant and try to get along but have a job to do and other people's water rights to protect. When you divert illegally your getting someone else's water. I hope this message to stop this activity will be heeded and I further direct you to take the pump and intake pipe out of the creek and not pump water further without authorization from the watermaster or his deputy.

We have these incidents all logged in the Watermaster's diary and with this writing would hope we both understand the conditions set forth without need for further action.

Sincerely,

  
Greg Shenton  
Deputy Watermaster #32-C
