TP-75-149

APPLICATION FOR TEMPORARY APPROVAL OF WATER USE

For a use not intended to become an established water right and not to exceed one (1) year in duration in accordance with [Idaho Code § 42-202A](#).

Name of applicant Revival Gold Incorporated Phone (208) 742-2699
 Mailing address 803 Monroe City Salmon
 State ID Zip 83467 Email pblakeley@revival-gold.com

1. Source of water Arnett Creek tributary to Napias Creek
 2. Location of point(s) of diversion. If more than two, attach a [Point of Diversion/Place of Use Supplement](#). ☐

TWP	RGE	SEC	GOVT LOT	¼	¼	¼	County	Source	Local name or tag #
22N	19E	23		SW	SW	SE	Lemhi	Arnett Creek	

3. Location of place of use. If more rows are needed, attach a [Point of Diversion/Place of Use Supplement](#). ☒

TWP	RGE	SEC	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

4. Proposed use of water:

- a. ☐ Prevention of flood damage ☐ Ground water recharge ☐ Ground water or surface water remediation
☒ Other (Limited to a diverted volume of 5 acre-feet.) Describe: Exploration Drill Water and Dust Control

- b. Attach a detailed description of how the proposal will accomplish the intended objective, such as prevention of flood damage.

5. Amount of water. Complete all three:

- a. Maximum rate of diversion: _____ cfs; or 100 gpm.
 b. Maximum daily volume: _____ AF; or 20,000 gallons.
 c. Maximum volume over the duration of the request: 5 AF; or _____ gallons.

6. Duration of diversion: from August 1 (month-day) to December 31 (month-day).

7. Describe proposed diverting works: A small suction line will be placed into the stream and pumped to a water truck

8. a. Who owns the property at the requested point of diversion? US Forest Service
 b. Who owns the facilities that will convey water to the place of use? Revival Gold, Inc.
 c. Who owns the land to be irrigated or place of use? US Forest Service
 d. If any of the items above is owned by a person or entity other than the applicant, describe the arrangement allowing access and attach written evidence of the arrangement. Revival Gold will be given a special permit to draft water at this location

9. Attach an 8 1/2" x 11" map identifying the water source, point(s) of diversion, place(s) of use and conveyance system.

I hereby acknowledge that I assume all risk of the diversion and use of the water under this approval. I certify this is a temporary use and is not intended to become an established water right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources ("Department") has examined this application for temporary approval to use water under the provisions of Idaho Code § 42-202A and has determined that:

 A. The application for temporary approval should be denied because _____

☒ B. The application for temporary approval should be approved, since

1. The temporary approval can be properly administered.
2. Other water sources are not readily available.
3. The approval is in the public interest.
4. The approval will not injure known public values associated with the water source or any known water rights.
5. If the temporary approval is within a water district, the Department has sought and considered the recommendations of the watermaster.

This application is therefore hereby:

 A. DENIED

☒ B. APPROVED, subject to the following conditions:

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk of the use of the water under this approval.
3. This approval authorizes a maximum diversion volume of 5 AF and a maximum diversion rate of 0.22 cfs.
(100 gpm)
4. This approval does not grant a right-of-way across the land of another.
5. The Department may cancel or reduce the rate of flow or volume authorized by this approval. For example, the Department may cancel or reduce this approval if it concludes the water use is injuring other water rights or adversely affecting fish, wildlife or other public values.
6. The applicant shall not divert water when downstream minimum flow water rights are not being satisfied.
7. This approval does not create a continuing right to use water.
8. A temporary approval for ground water recharge or prevention of flood damage shall be an opportunistic use of surplus water and shall not interfere with the filling of surface water reservoirs.
9. For a temporary approval authorizing ground water recharge or ground water or surface water remediation, the applicant shall measure and record the weekly quantity of water diverted and report the diversion data to the Department upon request.
10. This temporary approval is not an authorization for the described water use to be used as mitigation or credit for any other purpose.

11. Other: The depletion to Napias Creek resulting from diversion under this temporary approval is mitigated by a proportionate reduction in diversion

12. This approval expires on Dec 31, 2020

Under Right 75-7062.

Signed this 7th day of August, 2020.

RE: Application for Temporary Approval of Water Use: TP-75-149

Dear Applicant(s):

Your application for temporary water appropriation has been approved and is enclosed. The approval authorizes the temporary use of water and does not grant trespass or other activity on public land or on private property.

Please review the **conditions of approval on page 2 of the Application for Temporary Approval form** to understand the limitations associated with the temporary use of water.

This temporary approval **expires on** December 31, 2020. The expiration date cannot be extended under this temporary approval.

If you have any questions, please feel free to contact this office, and any of our agents will be able to assist you.

If you require additional information regarding this matter, please call me at (208) 497-3793 or email me at Christina.Henman@idwr.idaho.gov.

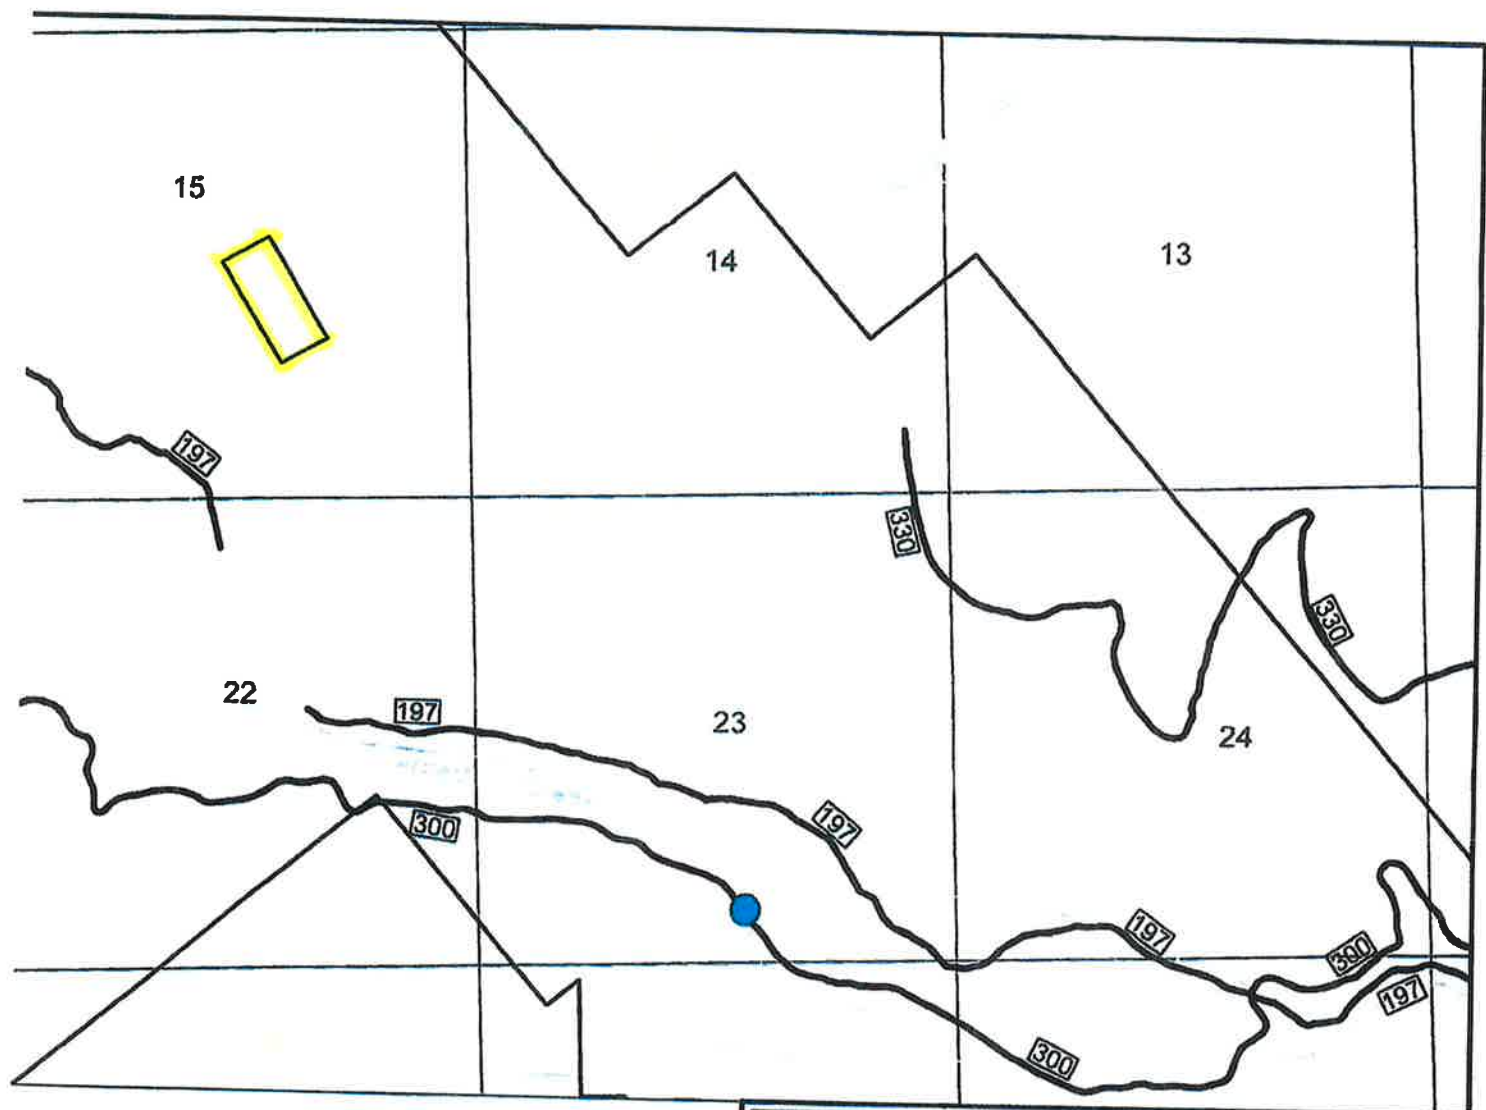

Sincerely,

A handwritten signature in black ink, appearing to read 'CH' or similar initials.

ARNETT CREEK PROJECT		
KMS KLEPPER MINING SERVICES LLC DRAWN: Jasper Geographics SCALE: as shown DATE: December 2017	PLAN OF OPERATION	FIGURE 4
	Revival Gold, Inc.	
	WATER WITHDRAWAL LOCATIONS Lemhi County, Idaho	

Addendum to the 2019 Arnett Drilling Plan of Operations

Background

Per the January 12, 2020 maps prepared by McGinley & Associates, submitted to the USFS by Revival Gold (Idaho) Inc. (Revival), Revival proposed to modify the Arnett Drilling Plan of Operations approved 6/14/2019 by Kyra L. Povirk, District Ranger.

Revival proposed to move 18 approved drill pads to a different location within the project area as delineated by the attached map. Access would include temporary routes per the attached map. This modification was documented by a Supplemental Information Report signed by Kyra L. Povirk on 5/12/2020. This modification includes assumption of all obligations from the 2019 Decision Notice and Finding of No Significant Impacts, the 2019 Plan that contains the reclamation bond, road use permit, and all Plan-related updates and attachments. Revival is referring to 2020 drilling as Phase II operations.

Bond

Reclamation of all disturbances connected with this plan of operations is covered by Reclamation Performance Bond No. 800043917, dated 01/17/20, approved by Charles A. Mark (Principal) and Atlantic Specialty Insurance Company through Smith Manus (Surety), for the penal sum of \$114,900.00 for Plan Number POO-2018-071705. This Reclamation Performance Bond is a guarantee of faithful performance with the terms and conditions listed below, and with the reclamation requirements agreed upon in the plan of operations. This Reclamation Performance Bond also extends to and includes any unauthorized activities conducted in connection with this operation.

The bond amount for this Reclamation Performance Bond was based on a bond calculation worksheet. The bond amount may be adjusted during the term of this proposed plan of operations in response to changes in the operations or to changes in the economy. Both the Reclamation Performance Bond and the bond calculation worksheet are attached to and made part of this plan of operations. Acceptable bond securities (subject to change) include:

1. Negotiable Treasury bills and notes which are unconditionally guaranteed as to both principle and interest in an amount equal at their par value to the penal sum of the bond; or
2. Certified or cashier's check, bank draft, Post Office money order, cash, assigned certificate of deposit, assigned savings account, blanket bond, or an irrevocable letter of credit equal to the penal sum of the bond.
3. A bond (surety, certificate of deposit, letter of credit etc.) will be required for the operation. The amount of bond will be sufficient to allow the Forest Service to reclaim all areas disturbed by the exploration activity. The bond will be furnished before approval of the Plan of Operations.
4. Reclamation includes concurrent, seasonal, and final activities which are required to minimize surface disturbance, enhance stability, prevent erosion, and return disturbed land to a productive pre-mining condition. The standards which guide the use and release of the reclamation bond are contained in 36 CFR 228, as well as those documented in the Plan of Operations.

MAINTAINABILITY OF A SURETY BOND

1. If the bond is provided by an approved surety company, and if at a future time, prior to expiration of the Plan of Operations or relinquishment of the bond by the Forest Service (FS), the surety company providing the bond is removed from the approved list, the Operator will automatically be placed in non-compliance and will be required to replace the unapproved surety provider used to bond for this operation. Replacement bonding may be through an approved surety company or other accepted and approved bonding mechanisms.

BOND UPDATE CRITERIA

1. The bond amount required for this Plan of Operations is subject to yearly review and adjustment to compensate for items including, but not limited to, completed reclamation work, changes in equipment rental rates, wage rate scales, fuel rates and increased scope of operations (increases or decreases in the amount of disturbance, addition of equipment, improvements, and materials).

BOND RELEASE CRITERIA

(If more space is needed to fill out a block of information, use additional sheets and attach form)

Addendum to the 2019 Arnett Drilling Plan of Operations

1. Prior to release, a field inspection is required to verify that reclamation has been performed in accordance with the approved reclamation plan and Plan of Operations.
2. Partial Release – Upon completion of the project, portions of the bond can be released when: 1) earthwork (recontouring, reshaping, ripping, etc.) has been completed and 2) all disturbed areas are stabilized and reseeded. The amount of the bond covering these activities can be released; however, the portion of the bond covering revegetation will be held until revegetation release criteria are met.
3. Successful Revegetation – Revegetation standards are established in the Salmon and Challis Forest Plans (Salmon National Forest LRMP, Appendix C, VII-C-9 and 10, A 5; Challis National Forest LRMP, IV-22 6 d, respectively). For this project, the revegetation release criteria for reclaimed sites will be to achieve 70 percent of the perennial plant cover of FS-selected comparison areas for a period of two years.
4. Final Bond Release – Total release of the bond can only be approved when all surface structures, equipment, trash, and supplies have been removed; all disturbed areas have been recontoured and reshaped and adequate drainage has been completed; and revegetation has met the release criteria.

TERMS AND CONDITIONS

- A. If a bond is required, it must be furnished before approval of the plan of operations.
- B. Information provided with this plan marked confidential will be treated in accordance with the agency's laws, rules, and regulations.
- C. Approval of this plan does not constitute certification of ownership to any person named herein and/or recognition of the validity of any mining claim named herein.
- D. Approval of this plan does not relieve Revival of responsibility to comply with other applicable state or federal laws, rules, or regulations.
- E. If previously undiscovered cultural resources (historic or prehistoric objects, artifacts, or sites) are exposed as a result of operations, those operations will not proceed until notification is received from the Authorized Officer that provisions for mitigating unforeseen impacts as required by 36 CFR 228.4(e) and 36 CFR 800 have been complied with.
- F. This plan of operations has been approved for a period until **10/30/2021** per the 2019 Plan of Operations. A new or revised plan must be submitted in accordance with 36 CFR part 228, subpart A, if operations are to be continued after that time period.

OPERATING PLAN ACCEPTANCE

☒ ☐ We have reviewed and agreed to comply with all conditions in this plan of operations including the required changes, modifications, special mitigation, and reclamation requirements.

☒ ☐ We understand that the bond will not be released until the Authorized Officer in charge gives written approval.

To: Yenter, Cindy; Pete Blakeley
Subject: Water right A75-07062

Cindy,

Per our previous conversation, Meridian Beartrack Co is authorizing IDWR to grant Revival Gold beneficial use of the diversion rights in our Napias Creek water right A75-07062 in their temporary water right application for 2020-21.

Meridian will subtract any diversion amounts authorized to Revival Gold from any of our own beneficial use diversion that may occur after the issuance of Revival Gold's temporary permit.

Sincerely,
Adam Whitman
Meridian Beartrack Co

Subject: temporary app
Attachments: 20200804110621.pdf

Here's one coming your way, name of Revival Gold. I've been expecting it, and I think Peter Blakeley talked with someone in the region a few days ago. He is sending the entire packet, payment and supporting info by FedEx today. This is in the Napias Ck drainage in B75.. James we talked about this one where any consumptive use is proposed to be offset by non-use of a Meridian Beartrack right from Napias Ck.. There is an email from Beartrack and the USFS Plan of Operation included in the packet.

Mr. Blakeley had some misunderstandings about the Temporary Approval process, and did not realize the Revival approval from last year had expired. Consequently he waited a little late to file this and would like review expedited to the extent possible. I had him include the documents I thought you would need, but please don't hesitate to contact him if you need additional information.

With the mitigating right I don't have any concerns with this. The company has a NMFS-approved screen on their suction intake.
