CONDITIONS OF APPROVAL

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
2. Water shall not be diverted under this right unless the flow of the Snake River at the U.S. Geological stream gaging station at Weiser exceeds 4,750 cfs.
3. Rights 3-7034 and 67-4016 when combined shall not exceed a total annual maximum diversion volume of 85.5 af at the field headgate, and the irrigation of 19 acres.
4. Right Nos. 3-7034 and 3-10198 are limited to a total combined diversion rate of 1.30 cfs and to a total combined annual diversion volume of 432.0 AF from the point of diversion in T10N, R05W, S17, NWNW Lot 4.
5. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than 9/29/2009.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Rights is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 84011 City of Weiser
FROM: Allen Bradbury
DATE: 06/10/2020
RE: Evaluation of Application

Summary of Application Proposal

Narrative: Transfer 84011 proposes to add a point of diversion for water rights 3-7034, 3-10198, and 3-10264 at approximately river mile 355.4 on the Snake River. These rights currently irrigate 19, 188, and 11 acre places-of-use respectively from the Snake River. The City of Weiser is proposing this change due to alterations in the meander path of the Snake River which affect the current point of diversion. The additional point of diversion will be approximately $\frac{3}{4}$ of a mile up river from the current point of diversion. Water will be used at the current place of use approximately 2.5 miles south of Weiser, Idaho in the area surround the Weiser Airport.

Location of Application Proposal: The proposed change is located approximately 3 miles south of Weiser, Idaho in Washington County about $\frac{1}{4}$ mile south of the intersection of Hansen and Airport Road.

Summary of Information Submitted

Authority to File: The application was filed in the name of the City of Weiser and signed by Randy Hibbard, Mayor on 3/17/2020. The application was prepared by Candice McHugh of McHugh-Bromley.

Water Right Validity/Historical Beneficial Use: Water rights 3-7034, 3-10198, and 3-10264 are irrigation rights from the Snake River decreed on 9/29/2010. Recent beneficial use within the previous, consecutive, five-year period was confirmed via aerial photography, and GIS ArcMap tools. No defense of forfeiture is needed.

Overlap Analysis: Overlap analysis show 3-7053, 3-10215, and 3-10216 in the same NWNW quarter-quarter, however GIS database points show distinctly different locations from the City of Weiser diversion. Water right 67-4016 is a groundwater right held by David Hansen that overlaps 15 acres of 3-7034 limited to irrigation of a combined total of 96 acres and a total combined annual diversion volume of 432 AF.

Injury to Other Water Rights: None anticipated, though there are other surface water diversions between the current POD and the new POD location. The shared diversion point for 3-7034 and 3-10198 is moving upstream and the shared diversion point for 3-10264 and the second POD for 3-10198 is moving downstream. In any case, this is the addition of a point of diversion. There is no information to suggest this is a gaining or losing reach of the river or that moving to this location will diminish the availability to other users.

Enlargement of Use: IDWR's Administrator's Memorandum 24 Transfer Processing Policies & Procedures section 5d, enlargement of use, elicits a concern with multiple points of diversion in item 10, enhancing water supply. Item 10 states, "an application for transfer, which proposes to change a point of diversion from a surface water source to a new location where the water available is greater or more reliable, such as moving from the tributary of a stream downstream to the mainstem of the stream, is presumed to enlarge the water right, unless the proposed change is subject to conditions limiting diversion of water at the proposed new point of diversion to times when water is available and in priority at the original point of diversion." The application states that "due to change in the Snake River meander lines and the location of the prior point of diversion, it is more feasible to add an additional point of diversion slightly up river from the old point of diversion."

There is no evidence that the new point of diversion will cause enlargement by enhancing supply.

Local Public Interest: There are no anticipated impacts to recreation, fish, or wildlife as a result of this transfer. The proposed transfer would comply with local and state government regulations, zoning ordinances, and policies. This transfer is compatible with the objectives and policies of the State Water Plan. The application was advertised and we did not receive any protests. For these reasons, this transfer should be considered in favor of local public interest.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho by continuing to irrigate agricultural lands.

Summary of Application Approval / Denial

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Assuming no other information contradicts the above analysis, the application can be approved as reflected by the draft approval.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 84011 OK BY 7/7/2020

CITY OF WEISER, 55 W IDAHO ST, WEISER, ID 83672
has filed Application No. 84011 for changes to the following
water rights within WASHINGTON County(s): Right No(s).
3-10198, 3-10264, 3-7034; to see a full description of these
rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The pur-
pose of the transfer is to change a portion of the above rights
as follows: This transfer proposes to add a point of diversion
for water rights 3-7034, 3-10198, and 3-10264 which cur-
rently irrigate 19, 188, and 11 acre places-of-use respectively
from the Snake River. The additional point of diversion will
be approximately 3/4 of a mile up river from the current point
of diversion for the City of Weiser. Water will be used at the
current place of use approximately 2.5 miles south of Weiser,
Idaho in Washington County near the intersection of Hansen
and Airport Road.

For additional information concerning the property location,
contact Western Region office at (208)334-2190. Protests
may be submitted based on the criteria of Idaho Code Sec. 42-
