WATER RESOURCES
WESTERN REGION

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 78-12521

1. Name of applicant(s) City of New Meadows Phone (208) 342-2171
 Name connector (check one): ☐ and ☐ or ☐ and/or
 Mailing address P.O. Box 324 City New Meadows
 State ID ZIP 83634 Email nmcitysewer@frontiernet.net
2. Name of representative, if any Charles Honsinger, Honsinger Law, PLLC Phone (208) 863-6106
 Mailing address P.O. Box 517 City Boise
 State ID ZIP 83701 Email honsingerlaw@gmail.com
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Groundwater which is a tributary of N/A
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
19N	1E	24			NW	NW	Adams	Groundwater	New Well
19N	1E	13			SW	SW	Adams	Groundwater	New Well

5. Water will be used for the following purposes:
- Amount .32 cfs for Irrigation purposes from 4/1 to 10/31 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) .32 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Well and pump diverts water into irrigation system.
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate [Application for Construction or Enlargement of a New or Existing Dam](#). Application required? ☐ Yes ☐ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? _____; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____.

For Department Use

Received by AK Date 7/6/2020 Time 4:19pm Preliminary check by AK
 Fee \$ 250 Receipted by AK Receipt No. W045480 Date 7/6/2020

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the Municipal Water Right Application Checklist.
- Domestic; show number of households _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
19N	1E	13										2.31	11.5	1.4					13.95
19N	1E	24					.06	1.74											1.80

Total number of acres to be irrigated: 15.75

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 78-12423 diverted from Goose Creek and 78-12425 diverted from Goose Creek and wastewater. These water rights are insufficient. During most years, these rights are curtailed. The City is also applying for a surface water right for the same purpose.

- Who owns the property at the point of diversion? Applicant
- Who owns the land to be irrigated or place of use? Applicant
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. The City of New Meadows has DEQ re-use permit for land application of wastewater at the same location as the proposed place of use. The permit requires that the crop on this acreage be maintained through the irrigation season. The Goose Creek/wastewater water rights held by the City are insufficient for this purpose. The City is also applying for a surface water for the same purpose.

13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 78-12521 & 78-12522

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the THE RECORD on 8/6/2020 and 8/13/2020. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Kensie Thorneycroft
Administrative Assistant

This application proposes the diversion and use of water from a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the Western office at (208)334-2190; or for a full description of the right(s), please see

<https://idwr.idaho.gov/apps/ExtSearch/WRAApplicationResults/>. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 W AIRPORT WAY, BOISE ID 83705-5082 together with a protest fee of \$25.00 for each application on or before 8/24/2020. The protestant must also send a copy of the protest to the applicant.

Dear Ms. Kaiser:

Thank you for your email of this morning regarding the conflict between the acreage in the tables, and the "total number of acres to be irrigated" in the referenced applications.

The error is mine. In each case, the acreage in the SESW, Section 13 R1E T19N should read ".14" instead of "1.4". The math will then be accurate. I am attaching the scanned corrected pages on which I have scratched out the decimal located between the "1" and the "4", and placed it before the "1" where it belongs.

Thank you for pointing out the typographical error and for allowing me the quick simple fix of minor interlineation.

Please feel free to contact me with any further questions or concerns.

Sincerely,

Charles L. Honsinger

Good morning,

I am currently reviewing water rights applications 78-12521 and 78-12522 submitted in the name of City of New Meadows. I noticed a discrepancy between the POU table and the "total number of acres to be irrigated" under section 9 of each application. The acreage amounts described within the table total 17– *15.21 acres in*

section 13, and 1.8 acres in section 24. The “total numbers of acres to be irrigated” under the table describes 15.75 acres.

I attached pg. 2 of each application to this email. Please clarify the proposed acreage under section 9 and return a scan of both applications back to me at anna.kaiser@idwr.idaho.gov.

Thank you,

Anna

Re: City of New Meadows Applications

Dear Mr. Miller:

Enclosed herewith are the following three applications (together with the required processing fees totaling \$550.00) that I submit to IDWR for processing on behalf of this firm's client the City of New Meadows:

1. Application for permit to divert water from the Little Salmon River
2. Application for permit to divert water from groundwater.
3. Application for temporary approval of water use from the Little Salmon River.

You and I have previously discussed the City's situation with respect to its IDEQ wastewater reuse permit. You will recall that IDWR approved an application for temporary approval of water from the Little Salmon River during the 2019 irrigation season to allow the City to supplement its wastewater effluent to ensure the continued survival of the crop on the reuse site (a condition of the DEQ permit). The City is submitting the enclosed Application for temporary approval in the event that a similar situation arises during 2020.

Additionally, the City is submitting the two enclosed Applications for permit in an effort to more permanently solve the water deficiencies on its reuse site caused by the annual curtailment of its Goose Creek/Wastewater right nos. 78-12423 and 78-12425.

We look forward to quick processing and approval of these applications. Please contact me with any questions or concerns. Thank you.

Sincerely,

Charles L. Honsinger
