Subject: Readvertising Application for Permit 63-34682 (Jeff Dancer)
Attachments: 63-34682 Application Form.pdf; Dancer2.pdf

Jeff,

As we discussed on the telephone today, you have clarified that your proposed point of diversion for this application should be at the head of the irrigation canal in the SENE of Section 1, rather than at the location of the control structure in L1 (NENE) of Section 1 as proposed on the application. You will need to amend your application to change the legal description of the proposed point of diversion and update the map. This amendment will also require readvertising. I have attached a scanned copy of the application and an updated map for your use/reference.

You may either amend the application on the attached documents and return them to us or you may come into the office here and amend it in person. In either case, you must also submit a \$50 readvertising fee to the department.

It appears the changes you need to make are to the following lines:

Line 4 – Line through the leftmost “NE” and write “SE” below, then initial and date the change.

Line 11.a. – Line through “Dixie Land LLC” and write in the owner at the actual diversion (I believe it is Thorpe) , then initial and date the change.

Line 11.c. – provide an statement as described, then initial and date the change.

Also, verify the location of the diversion on the map, mark it, then cross off the diversion in the NENE, then initial and date the location change.

If we receive the fee and the changes before next Wednesday, we can get it into the paper to be advertised the last two weeks of February, otherwise it will be delayed until the first two weeks of March at the earliest.

Let me know if you have questions.

Nick.
