Eric Miller,

This is Jake with IDWR, I've been working on your application for permit. Everything is proceeding fine, we do have a clerical adjustment that we need your approval for. The Water Master is wanting to edit your point of diversion on your application, I have attached their email that can explain this further for you. To move forward we would need your approval of the amended application that I have added to this email. All we need is your signature on the amended application and we can move forward to the water permit stage.
