**ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES**

This is to certify that the department has examined this application for temporary approval to use water under the provisions of Section 42-202A, Idaho Code, and has determined that:

☐ A. The application for temporary approval should be denied.

☒ B. The application for temporary approval should be approved, since

1. The temporary approval can be properly administered.
2. Other water sources are not readily available.
3. The approval is in the public interest.
4. The approval will not injure known public values associated with the water source or any known water rights.

This application is therefore hereby:

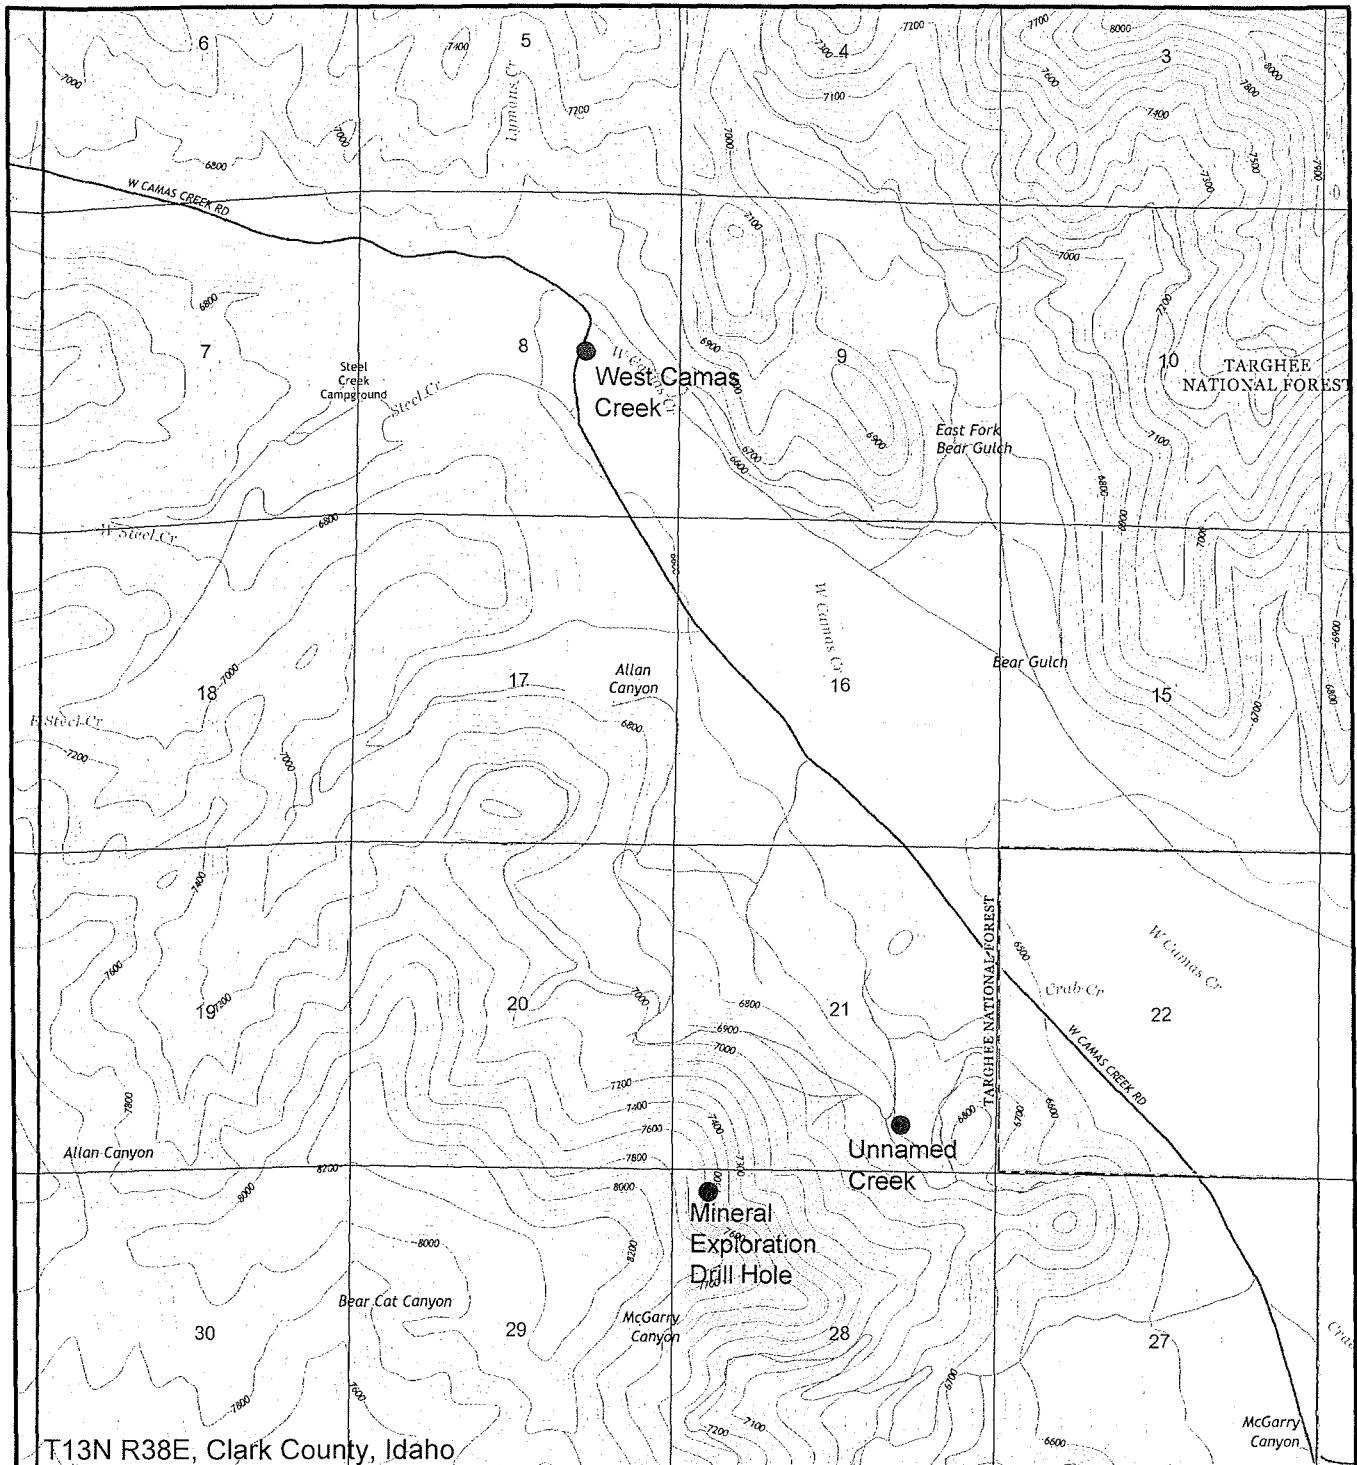

☐ A. DENIED

☒ B. APPROVED, subject to the following conditions:

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk the use of the water under this approval may injure other water rights.
3. This approval authorizes a maximum diversion of 5.0 AF and a maximum rate of diversion of .04 cfs.
4. This approval does not grant a right-of-way across the land of another, does not create a continuing right to use the water and may not be used in connection with a use which requires a continuing water supply.
5. The department may cancel this approval at any time if the department identifies injury to other water rights.
6. This approval does not create a continuing right to use water.
7. The holder of this temporary permit shall not divert at a rate or in a manner that will significantly reduce the flow in the water source or otherwise adversely affect fish, wildlife or other public values.
8. Other: May be subject to delivery and administration costs of the water district.
9. This approval expires on 12-31-2016.

Signed this 29th day of Apr., 2016.

**Re: Temporary Water Appropriation Applications**

To Whom it May Concern:

This letter is written on behalf of Otis Gold Corporation (Otis) concerning three temporary water withdrawal requests, (TP-31-34, TP-31-35, and TP-31-36) that were previously approved on August 18, 2015. Klepfer Mining Services (KMS) is providing services to Otis Gold on their Kilgore Exploration Project.

The primary water source will be an exploration drill hole that was previously approved for temporary appropriations. Due to the seasonal aspect of flows in the area, two additional points of diversions are required as backup water sources. The application form did not allow space for three points of diversions, so we completed an application for each of the three locations.

It is our intent to be allowed three points of diversion (same as previously approved), as outlined in each application, which will operate under the combined volume of 5 acre-feet limitation. Included are the following:

- Mineral Exploration Drill Hole – Application, Map and Fee;
- West Camas Creek – Application, Map, and Fee; and
- Unnamed Stream – Application, Map and Fee.

If you have any questions, please contact me at 208-772-6993 or [eric@klepfermining.com](mailto:eric@klepfermining.com).

Sincerely,
