RE: Comments regarding Applications for Permit No. 47-17716 (Drain Tunnel) &

47-17717 (Rock Creek)

Dear Mr. Woodhead:

I am a water rights attorney and represent The Amalgamated Sugar Company ("Amalgamated"). Amalgamated filed for two <u>non-consumptive water rights</u>: one for 7 cfs from Drain Tunnel and one for 7 cfs from Rock Creek. The total diversion between the two rights will not exceed 7.0 cfs. The use of water is not new and has been occurring for the past few decades. However, late last year, Amalgamated was made aware that it did not have sufficient water rights to cover the June through September time period which were in place due to the manufacturing practices at the time of application. Thus, the two above listed applications were filed.

As part of the application process, IDWR requires Amalgamated to seek comments from you. If you have any comments, please provide them to me by July 6, 2020. I have enclosed a form that you can use to provide any comments you may have.

If you have any questions, please call me at 208-287-0991.

Very Truly Yours,

Candice M. McHugh
