## ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State

of Idaho No. <u>47-7843</u>, and said application is hereby <u>APPROVED</u>

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore March 1 , 19 <u>88</u>.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other:

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required. This permit is subject to the provisions of Sections 42-205

This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.

Use of water under this permit is subordinated to future diversion of water either upstream or downstream for irrigation or other consumptive beneficial uses.

th Witness my hand this 30 day of March, 1983.

Dids

Chief, Operations Bureau
