MEMORANDUM

DATE: 15-Oct-1992

FROM: Loren Holmes

TO: Glen Saxton

SUBJECT: 47-7776

This file surfaced as a result of Tim Luke's discovery of the trustwater questionnaire in his basket.

A field inspection in 1982 revealed the wastewater already in use for irrigation.

The applicant is subject to the rule 4,5,3 information requirements for the power portion of the application.

The applicant has not been notified of the additional info requirements now in place, but had not previously responded to inquiries about ownership of the works.

At one point we drafted a notice of pending cancellation, but held the application due to the Swan Falls case.

If no FERC approval has been sought, I would recommend that the application be voided as speculative.

RE: Water Right No.

Certified Mail No.

Dear Water Right Holder(s):

In response to record low streamflows and declining groundwater levels resulting from drought conditions, the Director of the Department of Water Resources has declared a moratorium on approval on certain pending and future applications to appropriate water in the Snake River Basin. The moratorium applies to both surface water and groundwater appropriations.

Department records show that you filed an application to appropriate water for irrigation which has not been approved by the Department. Unless you can demonstrate that your proposal qualifies for a narrow exemption to the moratorium, the department will hold your application, and will not process it until the moratorium is lifted.

An application for groundwater to supplement a normally sufficient surface water irrigation supply is exempt from the moratorium. If you can demonstrate that you normally receive an adequate supply of irrigation water from a surface water source, and that you will continue to fully use the surface water, when available, the Department will continue processing your application. If there are other impediments to approval such as a protest or necessary consent from other agencies, the other obstacle to approval must also be removed independent of the moratorium.

The enclosed form requests information which will determine whether your proposed use will qualify for the supplemental irrigation exemption. IF YOU FEEL YOUR PROPOSED USE QUALIFIES AS AN EXEMPT USE, YOU MUST COMPLETE THE FORM AND RETURN IT TO THIS OFFICE. If the form is not completed and returned, your application will be held without action. If you return the form but the use does not qualify, the Department will notify you that the application will be held without further processing.

77-7776

Certain domestic and non-consumptive uses are also exempt from the moratorium. If your application proposes one of these uses in addition to irrigation, the department will resolve the exemption issue by reviewing the file.

The Department has scheduled public meetings on May 29, 1992 where the details of the moratorium can be discussed. Below is a list of time and locations.

Boise, Idaho May 29, 1992 10:00 am Boise City Hall 150 North Capital Boulevard Les Bois Room - 3rd floor

Idaho Falls, Idaho May 29, 1992 10:00 am Bonneville County Courthouse 605 North Capital Centennial Court Room

Twin Falls, Idaho May 29, 1992 10:00 am College of Southern Idaho 315 Falls Avenue Shields Building - Room 115

Sincerely,

GARY SPACKMAN, Supervisor Water Right Permits Section

MEMORANDUM

TO: LOREN HOLMES

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

PERMIT NO. 47-7776

DATE: 6-30-89

The applicant has returned our trust water information questionnaire (attached) and provided evidence that the lands under the application were irrigated prior to October 1, 1984. Our 1974 orthophoto confirms this statement. These lands apparently have appurtenant Twin Falls Canal shares.

The applicant did not provide sufficient evidence that the wastewater source identified under the application was developed prior to October of 1984. However, after discussing this matter with you, we determined that the wastewater source has probably always been delivered and comingled with the canal shares since the lands are near the end of the canal ditch. Any wastewater is ofcourse supplemental. The acres under this application would not be counted as trust water acres even if the source had not been developed before October of 1984. Furthermore, you mentioned that you had recalled the applicant adding the irrigation component so that the filing would be subject to the Swan Falls moratorium. This in turn would delay approval of the application and allow the applicant more time to plan his proposed hydropower project.

Based on the above information, I recommend that the department consider this application exempt from the review requirements of Section 42-203C, Idaho Code. The application may be removed from the Swan Falls pocess list and approved to permit pending any necessary compliance with departmental rules concerning the hydropower component.

JUN 26 1989

Department of Water Resources Southern Region Office

APPLICATION NO. 47-7776

IF YOU ARE NOT INTERESTED IN HAVING YOUR PERMIT PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED RELINQUISHMENT FORM.

INSTRUCTIONS: Please answer the following questions as thoroughly as possible and submit the \$20.00 readvertisement fee if applicable.

1. Did irrigation occur on the lands identified under application prior to October 1, 1984? Yes No	your	
If yes, you are requested to submit clear evidence than number and location of acres irrigated.	at shows	the
Aerial photographs taken prior to October 1 1984 loc	nated in	250

Aerial photographs taken prior to October 1, 1984, located in area ASCS offices, are best forms of evidence. Photos submitted to the the Department must be accompanied by a signed statement from an ASCS representative which verifies the photo date and that the lands were irrigated prior to October 1, 1984. If ASCS does not have photos for the land and/or time in question, you must have the ASCS provide the Department with a statement that photos are not availlable and then proceed to submit other forms of suitable evidence.

2.	Please	state	the	number	of	acres	you	have	irrigated	under	this
app	licatio	on sind	ce O	ctober	1,	1984.	100) ACX	es		_

3. If	you	have no	t	irrigat	ced	lands	under	this	application,	please	
state	the	number	οf	acres	you	plan	to co	mplete		-	

NOTE: You must submit the \$20.00 readvertisement fee if any or all of the lands were not irrigated before October 1, 1984.

4. If the application is a supplemental filing please identify other water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments.

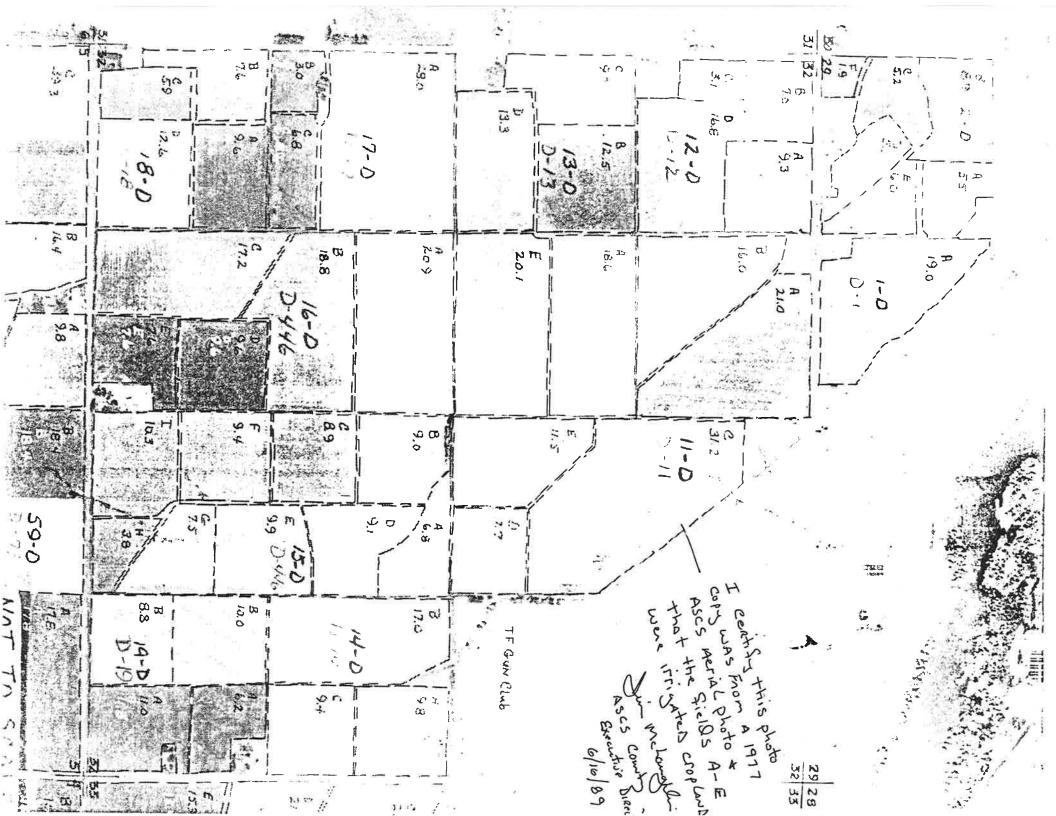

Macus

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. 47-7776

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed relinquishment form and return it to the Department.

If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire.

If the entire project was not completed prior to October 1, 1984, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,2. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to void the application.

Page 2

If you have questions concerning the content of this letter or about completing the forms, please contact Tim Luke at the address below or by calling directly at 327-7864. The enclosed forms and all other relative information must be returned within thirty (30) days to:

Idaho Department of Water Resources Statehouse Mail Boise, Idaho 83720 Attn: Tim Luke Water Allocation/Trust Water

Please note that a copy of your application is enclosed. The application number is also shown on the enclosed questionnaire.

Sincerely,

TIM LUKE

Sr. Water Resource Agent
