8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of this right is combined with water from Southeast Idaho Canal Co. and Wilford Irrigation & Mfg. Co.
13. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

13	Narrative: The Department received these applications on April 6, 2020. The current owner would like to place the entirety of both rights in the Bank. Shawn Walters is the designated applicant. Water Right 22-4046 is the parent of 22-14206. 22-4046 was first decreed in 2007. The decree was set aside and amended in 2012. 22-4046 was placed in the Bank in 2016, 2017 and 2019. 22-14206 was split by ownership change in 2016 and placed in the Bank separately in 2017 & 2019. The ownership change only conveyed a portion of the water right and no land. These groundwater rights are primary rights and were used as such until water delivery improved enough to deliver canal water to all of the property. The canal system was destroyed during the Teton Flood. The land will continue to be irrigated by water from the Southeast Idaho Canal Co. and Wilford Irrigation Co. The surface water and ground water have not been co-mingled. These rights are currently within WD 100.
