Department of Water Resources Southern Region Office

RE: PROTESTED APPLICATION FOR PERMIT NO. 45-07096

Dear Ms. Pappas:

The department of Water Resources (IDWR) is currently reviewing protested applications for permit which are pending before the department. Our files show that on June 6, 1972, you filed the above referenced application proposing the diversion of 1.69 cubic feet per second (cfs) of water from Unnamed Creeks tributary to the Snake River to be used from April 1 to October 31 for irrigation purposes. The application was subsequently protested by several parties.

Department files also show the following:

- 1. On October 14, 1982, the department conducted a hearing in the matter in Burley, Idaho. The department did not issue a decision in the matter due to the Swan Falls water right controversy.
- 2. An agreement to resolve the contested matter has been prepared but has not been consumated by the parties.
- 3. The last correspondence in the department's water right file is dated 1982.

Since substantial time has passed subsequent to the filing of the application, it appears that one of two potential actions needs to occur in connection with the application as follows:

- 1. If you are no longer actively pursuing the development proposed in the application, please complete and return the enclosed relinquishment form. IDWR will then remove the application from IDWR records.
- 2. If you are actively pursuing the proposed development, you need to specifically advise IDWR in writing of your continued interest within thirty (30) days of the date of this letter. In addition, please provide information to IDWR to demonstrate that you have been actively pursuing the proposed project

45- 7096

since 1982.

If you do timely respond and provide the requested information, the department will maintain the application in its records and will seek to complete the contested matter once the present moratorium in the Eastern Snake River Plain has either been lifted or modified to allow additional consumptive use of water for irrigation projects.

If you do not timely respond to this letter or do not make a sufficient showing that you have been pursuing the proposed project, the department will reject the application pursuant to provisions of Section 42-203A(5), Idaho Code, as being filed for speculative purposes.

Please feel free to contact the department if you have questions.

Sincerely,

L. GLEN SAXTON, Chief Water Allocation Bureau

Encl: 1

STATE OF IDAHO

DEPARTMENT OF WATER ADMINISTRATION

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho (TYPE OR PRINT IN INK)

HELEN PAPPAS 1. Name of applicant ____ Declo, Idaho post office address____ 2. Source of water supply unnamed creeks which is a tributary of Snake River 3. a. Location of point of diversion is SE ¼ of NW ¼ of Section 22 Township 10 S Range 24E B.M. Cassia County; additional points of diversion if any: At varying points along an unnamed creek located in the NE4SW4, of Sec. 22, T.10S, R.24E, B.M. and at varying points along an unnamed creek located in the NE4SE4, Sec. Sec. 21, T. 10S, R.24E, B.M., all within Cassia County b. If water is not consumed, it will be discharged into _____ ¼ of Section______ Township_____ Range______ B.M._ 4. Water will be used for the following purposes: Amount 1.69 for irrigation purpose from April 1 to Oct. 31 (both dates inclusive) _____ purpose from______ to _____ (both dates inclusive) for (cfs or acre-feet per annum) _____to_____(both dates inclusive) for______(cfs or acre-feet per annum) _ purpose from 5. Total quantity to be appropriated: a. 1.69 cubic feet per second and/or _____ acre feet per annum. 6. Proposed diverting works: a. Description of ditches, flumes, pumps, headgates, etc._____ portable pump and sprinkler equipment b. Height of storage dam ______feet, active reservoir capacity ______ acre feet; total reservoir capacity______ acre feet, materials used in storage dam:_____ Period of year during which storage will occur _______(Mo, Day) _inclusive. c. Proposed well diameter is_____inches; proposed depth of well is____ 7. as Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years. b. Estimated construction cost is \$ 2000 8. Description of proposed uses: a. If water is not for irrigation: (1) Give the place of use of water: _______1/4 of _______1/4 of Section _______ Township_ (2) Amount of power to be generated: _____ hp under _____ feet of head. (3) List number of each kind of livestock to be watered_ (4) Name of municipality to be served..... supplied with domestic water____ (5) If water is to be used for other purposes describe:____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:
