																1/2	1/4	1/4	

4. Describe proposed use of water: Mining for gold. We will use a close water system. Will use two or more live stock water containers for settling (cleaning the water). Water will go through the wash plant, sluice box, water containers and back to the wash plant. By doing this type of operation we will use less water.

5. Amount of water:

Maximum rate of diversion _____ cfs or very low rate of _____ gpm.

Maximum daily volume _____ AF; total volume 1.5 to 2 AF.

6. Duration of diversion: from 1 May 2014 (day-month) to 15 October 2014 (day-month).

7. Describe proposed diverting works: Will use a small pump to get the water from the creek.

8. a. Who owns the property at the requested point of diversion? U.S. Forest Service IMC 203393

b. Who owns the land to be irrigated or place of use? U.S. Forest Service IMC 203393

c. If the property is owned by a person other than the applicant, describe the arrangement allowing access to the water:
The Illinois Gulch Creek is on the mining claim. IMC 203393

9. Additional remarks: By using this closed system we will save water!

I hereby acknowledge that I assume all risk if the diversion and use of the water under this approval injures other water rights. I certify this is a temporary use and that I am not seeking a continuing right to use water.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that the department has examined this application for temporary approval to use water under the provisions of Section 42-202a, Idaho Code, and has determined that:

X a) The application for temporary approval should be approved, since

The temporary approval can be properly administered—no comments were received from other water right

1. Other water sources are not readily available.
2. The approval is in the public interest—reclamation of patented lands previously dredged
3. The approval will not injure known public values associated with the water source or any known water rights.

This application is therefore hereby:

___ a) DENIED

X b) APPROVED, subject to the following conditions:

1. Diversion and use of water under this approval is subject to all valid existing water rights.
2. The applicant assumes all risk the use of the water under this approval may injure other water rights.
3. This approval authorizes a maximum diversion of 2.0 AF and a maximum rate of diversion of 100 cfs/gpm
4. This approval does not grant a right-of-way across the land of another, does not create a continuing right to use the water and may not be used in connection with a use which requires a continuing water supply.
5. The department may cancel this approval at any time if the department identifies injury to other water rights.
6. This approval expires on 10/15/14.
7. This approval does not create a continuing right to use water.
8. The holder of this temporary permit shall not divert at a rate or in a manner that will significantly reduce the flow in the water source or otherwise adversely affect fish, wildlife or other public values. At no time shall this diversion exceed 25% of the total creek flow.
9. ¼ inch mesh screen shall be installed on the pump intake
10. Direct discharge of waste water/slurry into rivers, creeks, or streams is not authorized.
11. The water use approved herein is subject to and shall conform to the terms of the Forest Service approved Plan of Operations and /or required authorizations for this location.
12. This approval is subject to the availability of Boise River Rental Pool water to mitigate water losses and injury to existing river water rights. This authorization will require the rental of 2.0 acre foot of water from the Boise River Rental Pool, (2 acre foot minimum). *Contact: Rex Barrie, Boise River Watermaster, phone 208-908-5480.*
