WATER RESOURCES  
WESTERN REGION  
STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES

ID No. TP-75-95

IDWR / NORTH

**APPLICATION FOR TEMPORARY APPROVAL OF WATER APPROPRIATION**

(For a use not intended to become an established water right, not to exceed a total diverted volume of five (5) acre-feet, and not to exceed one (1) year duration in accordance with Section 42-202A, Idaho Code.)

Name of applicant: Columbia Basin Helicopters, Inc. Phone: 541-403-1419Address: 14178 Ben Dier Lane, Baker City, Oregon 97814 Email: See Below1. Source of water: Salmon River tributary to Snake River

2. Location of point(s) of diversion:

TWP	RGE	SEC	GOVT LOT	1/4	1/4	1/4	County	Source	Local name or tag #
23N	17E	15						Cove Creek Boat Ramp	

3. Location of place of use:

TWP	RGE	SEC	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

4. Describe proposed use of water U.S. Forest Service Mustang Fire Rehabilitation Project. Repair roads and dust abatement. Water to be used on the Salmon River Road, Spring Creek Road (038), Colson Creek Road (123), and helicopter staging areas for dust abatement. Water to be drafted between Spring and Colson Creek Roads.

5. Amount of water:

Maximum rate of diversion \_\_\_\_\_ cfs or 66 gpm.Maximum daily volume 40,000 G AF; total volume 800,000 G ~~AE~~ 2.5 acre-Ft.6. Duration of diversion: from May 13, 2013 to June 12, 2013  
Day-month Day-month7. Describe proposed diverting works: Pump from water truck.8. a. Who owns the property at the requested point of diversion? U.S. Forest Serviceb. Who owns the land to be irrigated or place of use? U.S. Forest Service Roadsc. If the property is owned by a person other than the applicant, describe the arrangement allowing access to the water:  
U.S. Forest Service approves the use of water for road repair and dust abatement.9. Additional remarks: The amount of water needed is conservative; we may not need that amount of water for the project. Weather permitting, the project will be completed in less time that what is listed.Email: albert.hanson@columbiabasinhelicopters.com

I hereby acknowledge that I assume all risk if the diversion and use of the water under this approval injures other water rights. I certify this is a temporary use and that I am not seeking a continuing right to use water.

**ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES**

This is to certify that the department has examined this application for temporary approval to use water under the provisions of Section 42-202A, Idaho Code, and has determined that:

- ☐ A. The application for temporary approval should be denied.
- ☒ B. The application for temporary approval should be approved, since
1. The temporary approval can be properly administered.
  2. Other water sources are not readily available.
  3. The approval is in the public interest.
  4. The approval will not injure known public values associated with the water source or any known water rights.

This application is therefore hereby:

- ☐ A. DENIED
- ☒ B. APPROVED, subject to the following conditions:
1. Diversion and use of water under this approval is subject to all valid existing water rights.
  2. The applicant assumes all risk the use of the water under this approval may injure other water rights.
  3. This approval authorizes a maximum diversion of 2.5 AF and a maximum rate of diversion of 66 cfs GPM
  4. This approval does not grant a right-of-way across the land of another, does not create a continuing right to use the water and may not be used in connection with a use which requires a continuing water supply.
  5. The department may cancel this approval at any time if the department identifies injury to other water rights.
  6. This approval does not create a continuing right to use water.
  7. The holder of this temporary permit shall not divert at a rate or in a manner that will significantly reduce the flow in the water source or otherwise adversely affect fish, wildlife or other public vaules.
  8. Other: Water intakes should be screened to prevent entrainment or impingement of fish or other aquatic life. The maximum screen mesh size should be 0.25 inches; approach velocities should not exceed 0.5 ft/second.
  9. This approval expires on July 30 2013.

Signed this 15<sup>th</sup> day of May, 20 13.

John W. Wasta Manager  
For the Director Western Region.
