9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Memorandum

To: Water Rights 36-2130C, 36-7850C, & 36-8106C

From: Scott Storms

Date: April 17, 2020

Re: Water Supply Bank Lease Application 1656 for Contract 1187

Purpose/Narrative: Application to lease a portion of water rights (WR) 36-2130C, 36-7850C, & 36-8106C to the Water Supply Bank (Bank) was received on March 4th, 2020. The application was submitted by Greg Sullivan of Brockway Engineering on behalf of W-4 Dairy, LLP. The application proposes to lease 6.8 acres, and associated rate and volume, to the Bank for 5 years, through 2024. These rights are stacked through combined rate, acre, and volume limit conditions on each rights, and therefore the proportionate amount of each needs to be submitted to the bank. This lease application is essentially a renewal of the prior lease, contract 425, submitted in 2015 and expired on December 31, 2019.

Authority to File: The application was submitted by Greg Sullivan of Brockway Engineering on behalf of W-4 Dairy, LLP, which is also listed as owner of record on these rights. The application was signed by Brent Whitesides. The annual report with the Idaho Secretary of State for W 4 Dairy LLP lists Brent Whitesides as a general partner. Parcel data available to the Department shows the land at the place of use (POU) and point of diversion (POD) as owned by W 4 Dairy, LLP. No concerns of authority to file.

Water Right Validity/Forfeiture Evaluation: All three rights were all decreed in 1997. Portions of these rights, primarily consisting of the unirrigated field corners, have been leased to the Bank since 2004. Review of historical maximum NDVI data shows the entirety of the 290 acres associated with these rights was irrigated as late as 1999, 5 years prior to first being leased to the Bank. No concerns over water right validity.

Injury Evaluation/Rentability: There are no concerns about injury to other water rights or water users.

Enlargement of Use/Rentability: These three rights contain a combined rate limit of 5.41 cfs, acre limit of 290 acres, and volume limit of 1160 af. The face of each right is also for 290 acres, so equal proportions of each right's acres will be leased to the Bank. This is how the application was submitted, 6.8 acres of each right was offered to the Bank. The combined rate limit is additive of the rates on the face of all three rights, so the associated rate/acre for each right will be leased to the bank, which is also how the application was submitted. The combined volume limit is equal to the standard headgate volume per acre for the region multiplied by the 290 acre combined limit. There is no volume on the face of any of the rights, so the standard headgate volume of 4 afa for each right will be placed in the bank. Because the remaining 283.2 acers of this right will still be irrigated, combined acre, rate, and volume conditions will be added to the final contract limiting the remaining portion to 283.2 acres, 5.28 cfs and 1132.8 af. Rental of all three rights needs to be limited to a total of 6.8 acres, 0.127 cfs, and 27.2 af when combined. Proper prior rental review should prevent any further concerns of enlargement.

Local Public Interest: There are no apparent local public interest concerns.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: There are no apparent local public interest concerns.
