**City of Bloomington Approval Letter for Temporary Water Usage.**

Dear Mr. Cefalo,

Paris Hills Agricom Inc. has proposed to purchase temporary water from the City of Bloomington, Idaho in order to drill a water monitoring well located on private property near Bloomington, Idaho. The nature of the drilling equipment and technology, as well as best drilling practices require the use on an onsite water supply. Water used for drilling purposes will be diverted from city fire hydrants into water storage trucks. The water storage trucks will then deliver the water to the drilling location. PHA agrees to comply with all regulatory requirements while drawing and transporting water from city limits to the proposed drilling location.

The City of Bloomington approves of this proposed plan.

Sincerely,

  
Joe Dunford
