WATER SUPPLY BANK LEASE CONTRACT No. 1194

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
14. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
15. The unleased portions of rights 29-2292, 29-13143 and 29-13144 when combined shall not exceed a total annual maximum diversion volume of 1180.0 af and the irrigation of 295.0 acres.

Narrative: The Department received the application for 29-2292 on April 6, 2020 and the other applications on April 29, 2020. The portions of these rights offered to the Bank have been in the Bank since 2014. The rights were decreed in 2004 and irrigation had taken place before the rights were placed in the Bank. The applicant wishes to place 70 acres of 365 acres in the Bank. These are mostly pivot corners or areas the pivots don't reach. 29-2292 does not have an acre limit, but 29-13143 has an acre limit of 126 acres and 29-13144 has an acre limit of 283 acres. The amount of acres for 29-13143 and 29-13144 was reduced due to the acre limit. These rights are currently NOT within a WD. These rights are part of a rental package and will be rented by Kevin Loveland.
