RE: Permit Nos. 72-7310 & 72-7354

Bureau of Land Management Attn: Lyle Lewis Box 430 Salmon, ID 83467

Dear Mr. Lewis:

Our office has received the field examination reports from our Southern Regional Office that were compiled for the above referenced permits.

Our examiner, Terry Blau, has stated that these permits were filed on developments that were previously licensed. He stated that you were going to withdraw these rights.

I am enclosing copies of Permit 72-7310 and License 72-7125 which are identified as the same development. Also enclosed are copies of Permit 72-7354 and License 72-7126 which are identified as the same development.

If you agree with Mr. Blau's findings and find these permits are covered under the licenses mentioned above, please sign the enclosed relinquishment forms and return them to our office by August 15, 1987. If you do not agree with the findings, please request a re-examination of these permits.

If you have any questions, please feel free to contact me at 334-4123.

Sincerely,

balk or

KAY WAL(KER Technical Records Specialist

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. <u>72-7310</u>, and said application is hereby <u>APPROVED</u>.

- 1. Approval of said application is subject to the following limitations and conditions:
 - a. SUBJECT TO ALL PRIOR WATER RIGHTS.
 - b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this

th day of December, 1983.
